MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Dribbling): Driveway with a basketball hoop above the garage, early evening, warm natural daylight, a few leaves on the concrete. The son, an 11-year-old boy with short curly hair, dribbles a basketball slowly. The dog walks beside him, eyes locked on the bouncing ball, head going up and down. Sound: ball bouncing on concrete, sneakers squeaking, boy laughing. 5-10s (Rebound fetch): Same driveway, early evening light. The son with short curly hair shoots and misses, the ball bounces off the rim and rolls onto the lawn. The dog trots after it and pushes it back toward him with her nose and front paws, then barks once. Sound: ball hitting the rim, rolling, one bark, boy says "thanks, coach". 10-15s (Free throws): Driveway, early evening, natural fading daylight. The son, a boy with short curly hair, stands at a chalk line and takes a careful free throw. The dog sits at the edge of the driveway on the grass, watching the ball go up, then turns her head to follow it through the net. Sound: swish of the net, boy says "yes", tags jingling. 15-20s (Passes with dad): Driveway, early evening light. The dad, a man in his late 30s with a short dark beard, bounce-passes the ball to the son with short curly hair. The dog trots back and forth between them following the ball, tail wagging, staying low and out of the way. Sound: ball bouncing, dad says "nice catch", panting, sneakers. 20-25s (Water break): Edge of the driveway at the curb, dusk, porch light just switched on. The son, an 11-year-old boy with short curly hair, sits on the curb sweating and pours water from his bottle into a folding fabric bowl. The dog drinks noisily beside him and he leans against her shoulder. Sound: water pouring, loud lapping, crickets, boy breathing hard.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
