Violin Practice for Her

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our son practices violin and the dog is his only audience: tuning up, a squeaky scale, a soft howl along, a gentle tune that puts her to sleep and a bow at the end.

TIMELINE

0-5s	Tuning up
5-10s	Squeaky scale
10-15s	Howling along
15-20s	Gentle tune
20-25s	Bow and applause

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Tuning up): Living room, late afternoon, soft natural daylight from the window plus a floor lamp, a music stand facing away from the camera. The son, an 11-year-old boy with short curly hair, sits on a chair turning the pegs of a small violin. The dog lies on the rug in front of him, watching. Sound: strings plucked, pegs creaking, a quiet room. 5-10s (Squeaky scale): Same living room, late afternoon light. The son with short curly hair draws the bow and plays a slightly squeaky beginner scale. The dog lifts her head and tilts it sharply to one side, then the other, ears moving with every high note. Sound: a squeaky violin scale, mom laughing quietly off camera. 10-15s (Howling along): Living room, late afternoon, natural window light. The son, a boy with short curly hair, plays a long high note. The dog points her nose to the ceiling and lets out a soft long howl along with it. The boy stops, grinning, and the dog stops too. Sound: a long violin note, a soft dog howl, boy laughs "she's singing". 15-20s (Gentle tune): Living room, early evening, the floor lamp on, warm ordinary light. The son with short curly hair plays a slow simple melody. The dog lies flat on the rug, her eyes slowly closing, her head sinking down onto her paws as she drifts off. Sound: a slow simple violin tune, a deep dog sigh. 20-25s (Bow and applause): Living room, evening, lamp light. The son, an 11-year-old boy with short curly hair, stands and takes a bow holding the violin. The daughter, a 7-year-old girl with two braids, claps from the couch. The dog lifts her head sleepily and thumps her tail on the rug. Sound: clapping, mom says "bravo", tail thumping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Tuning up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. Living room, late afternoon, soft natural daylight from the window plus a floor lamp, a music stand facing away from the camera. The son, an 11-year-old boy with short curly hair, sits on a chair turning the pegs of a small violin. The dog lies on the rug in front of him, watching. Sound: strings plucked, pegs creaking, a quiet room.

Clip 2 | 5-10s | Squeaky scale

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. Same living room, late afternoon light. The son with short curly hair draws the bow and plays a slightly squeaky beginner scale. The dog lifts her head and tilts it sharply to one side, then the other, ears moving with every high note. Sound: a squeaky violin scale, mom laughing quietly off camera.

Clip 3 | 10-15s | Howling along

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
