Cousins Visit From the City

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our city cousins who have never had a dog come to visit: the driveway arrival, a nervous first sniff, a fetch lesson from our son, their first leash walk and goodbye from the car.

TIMELINE

0-5s	Driveway arrival
5-10s	Nervous first sniff
10-15s	Fetch lesson
15-20s	First leash walk
20-25s	Goodbye from the car

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Driveway arrival): Front driveway, Saturday morning, overcast natural daylight, a car parked with its doors opening. A cousin, a 10-year-old girl with a short bob, and a cousin, an 8-year-old boy with a red cap, step out and stop. The dog stands beside the mom's legs, wagging, held loosely by the collar. Sound: car doors closing, mom says "she's very friendly", tags jingling. 5-10s (Nervous first sniff): Same driveway, overcast morning. The girl cousin with a short bob slowly holds out the back of her hand, arm stiff. The dog sniffs her fingers gently and licks them once. The girl pulls back with a surprised giggle, then reaches out again to touch the dog's head. Sound: a nervous giggle, sniffing, girl says "it tickles". 10-15s (Fetch lesson): Backyard, late morning, clouds breaking, natural daylight, patchy grass. The son, an 11-year-old boy with short curly hair, hands a tennis ball to the boy cousin in a red cap. The cousin throws it short and awkwardly. The dog races after it and brings it straight back to his feet. Sound: ball bouncing, running paws, the cousin shouts "she brought it back!". 15-20s (First leash walk): Quiet country road beside a hay field, midday, sunny with light clouds. The girl cousin with a short bob holds the leash with both hands, walking carefully. The dad, a man in his late 30s with a short dark beard, walks right beside her. The dog trots calmly ahead, sniffing the grass verge. Sound: gravel crunching, birds, wind in the field, girl laughing nervously. 20-25s (Goodbye from the car): Front driveway, late afternoon, soft natural daylight. The two cousins wave from the open back window of the car as it backs out slowly. The dog sits on the driveway beside the son with short curly hair, ears up, watching the car go with her head tilted. Sound: engine running, kids shouting "bye, we'll come back!", a soft whine.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

They arrived scared of dogs and left asking their parents for one.
Sorry, sis.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
