# The Puppy Joins Our Family

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

The day the puppy comes home and meets everyone: carried up the driveway, sniffing the kids on the rug, finding her new bed, meeting grandma, and falling asleep in a little lap.

## TIMELINE

| | |
|---|---|
| **0-5s** | Carried up the driveway |
| **5-10s** | Meeting the kids |
| **10-15s** | Finding her bed |
| **15-20s** | Grandma says hello |
| **20-25s** | First nap in a lap |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female German Shepherd puppy with fluffy black and pale silver-cream fur, oversized paws and floppy ears, wearing a small purple collar. 0-5s (Carried up the driveway): Concrete driveway in front of a beige two-story house, overcast afternoon daylight, a car door open behind. The dad, a man in his late 30s with a short dark beard, walks toward the front door holding the puppy against his chest with both hands. The puppy looks around with wide eyes, floppy ears bouncing with each step. Sound: car door closing, footsteps on concrete, birds, mom whispering "she's here". 5-10s (Meeting the kids): Living room with a worn grey rug and a couch behind, natural window light. The daughter, a 7-year-old girl with two braids, and the son, an 11-year-old boy with short curly hair, sit cross-legged on the rug with hands flat. The puppy wobbles between them, sniffing their knees and fingers, tail wagging in small fast flicks. Sound: kids giggling quietly, tiny paws on the rug, son whispering "hi baby". 10-15s (Finding her bed): Corner of the same living room by a bookshelf, soft afternoon window light. A new round grey dog bed sits on the floor. The mom, a woman in her mid 30s with shoulder-length brown hair, kneels and pats the bed. The puppy climbs in clumsily, sniffs the edges, turns in a circle and flops down. Sound: soft rustle of the bed, mom saying "this one's yours", kids saying "aww". 15-20s (Grandma says hello): Kitchen with beige tile floor and white cabinets, natural daylight from a window over the sink. The grandma, a woman in her late 60s with short grey hair and glasses, sits on a kitchen chair and gently lifts the puppy onto her lap. The puppy sniffs her cardigan and licks her chin while she laughs. Sound: grandma laughing, chair creak, puppy sniffing, grandma saying "oh, she's soft". 20-25s (First nap in a lap): Back on the living room rug, late afternoon light fading through the window. The daughter sits against the couch with her legs out, the puppy curled asleep across her lap, belly rising and falling. The mom sits beside her, one hand resting on the daughter's shoulder, both watching the sleeping puppy quietly. Sound: quiet room, tiny puppy breaths, daughter whispering "she's sleeping".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Carried up the driveway

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. ## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
