The Kids Choose the Puppy's Name

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The kids hold a very serious naming meeting: whispering ideas in a huddle, whispering to dad, whispering to the puppy, a family hand vote, and a big cheer when they agree.

TIMELINE

0-5s	Secret huddle
5-10s	Whispering to dad
10-15s	Asking the puppy
15-20s	Family hand vote
20-25s	Big cheer

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female German Shepherd puppy with fluffy black and pale silver-cream fur, oversized paws and floppy ears, wearing a small purple collar. 0-5s (Secret huddle): Living room floor with a worn grey rug, evening, ordinary ceiling lamp and a floor lamp on. The daughter, a 7-year-old girl with two braids, and the son, an 11-year-old boy with short curly hair, kneel with their heads close together, hands cupped, whispering. The puppy chews the son's sock beside them. Sound: muffled whispering, giggles, puppy tugging the sock, a lamp hum. 5-10s (Whispering to dad): Same living room, evening lamp light. The dad, a man in his late 30s with a short dark beard, sits on the couch leaning down. The daughter cups her hands around his ear and whispers. He raises his eyebrows, smiles and nods slowly while the puppy sits on the rug at his feet looking up. Sound: soft whispering, dad humming "hmm, I like it", puppy's collar jingling. 10-15s (Asking the puppy): On the rug in the same lamp-lit living room. The son lies on his stomach face to face with the puppy and whispers something close to her ear. The puppy tilts her head, then licks his nose. He rolls onto his back laughing and the puppy pounces on his curly hair. Sound: muffled whisper, puppy sniffing, son bursting out laughing. 15-20s (Family hand vote): Living room in evening lamp light, the mom, a woman in her mid 30s with shoulder-length brown hair, sitting on the couch beside the dad, the two kids standing in front of them. All four raise their hands high at the same moment. The puppy sits on the rug between them, looking from face to face. Sound: mom saying "all in favor?", a short pause, kids gasping happily. 20-25s (Big cheer): Same living room, evening lamp light. The kids jump up and down on the rug cheering with their arms up, then drop to their knees around the puppy. The puppy bounces between them with her tail going wildly and gives a tiny high bark. The parents clap from the couch. Sound: kids cheering "yes!", clapping, one squeaky puppy bark, laughter.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
