Growing Up Together - Six Months

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Six months in and she's all legs and ears: too big for her puppy bed, too big for the daughter's lap, tripping over her own paws, one floppy ear during training, and still a baby at bedtime.

TIMELINE

0-5s	Outgrown puppy bed
5-10s	Too big for a lap
10-15s	Tripping over paws
15-20s	One floppy ear
20-25s	Still a baby

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 6-month-old female black-and-silver German Shepherd, lanky with long legs and oversized ears, one ear still slightly floppy, wearing a purple nylon collar. 0-5s (Outgrown puppy bed): Corner of the living room by a bookshelf, morning window light, worn grey rug. The dog tries to curl up in her small round grey puppy bed, but her long legs and tail hang over the edges. She shifts, sighs and stays anyway, one paw dangling onto the floor. Sound: bed rustling, a big sigh, mom laughing "you don't fit anymore". 5-10s (Too big for a lap): Living room couch, midday daylight. The daughter, a 7-year-old girl with two braids, sits on the couch patting her lap. The dog climbs halfway up, front half across the girl's legs and back legs still on the floor, and the daughter giggles under the weight. Sound: daughter giggling "you're too heavy", couch creaking, tail thumping. 10-15s (Tripping over paws): Backyard with patchy grass and a wooden fence, overcast afternoon. The son, an 11-year-old boy with short curly hair, tosses a rope toy. The dog gallops after it on long gangly legs, overshoots, stumbles a little, then grabs the toy and trots back proudly. Sound: birds, quick pawsteps on grass, son laughing "all legs". 15-20s (One floppy ear): Same backyard, overcast daylight, close view. The son holds a small treat up. The dog sits on the grass and looks up at him, one ear standing tall and the other folded halfway over. She tilts her head and the floppy ear flips as she takes the treat. Sound: son saying "sit... good girl", treat crunch, birds. 20-25s (Still a baby): Kids' bedroom at night, ordinary bedside lamp on, a striped duvet. The daughter lies in bed and the dog sprawls across the foot of the bed, long legs stretched out and head on the girl's feet. The mom, a woman in her mid 30s with shoulder-length brown hair, pulls the blanket up. Sound: soft lamp click, quiet house, mom whispering "goodnight, you two".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Outgrown puppy bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old female black-and-silver German Shepherd, lanky with long legs and oversized ears, one ear still slightly floppy, wearing a purple nylon collar. Corner of the living room by a bookshelf, morning window light, worn grey rug. The dog tries to curl up in her small round grey puppy bed, but her long legs and tail hang over the edges. She shifts, sighs and stays anyway, one paw dangling onto the floor. Sound: bed rustling, a big sigh, mom laughing "you don't fit anymore".

Clip 2 | 5-10s | Too big for a lap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
