Her Spot at the Family Table

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Family dinner and she has her own spot: setting the table, lying on her mat by the daughter's chair, eating her own dinner as the family eats, a carrot slice from dad, and napping on feet under the table.

TIMELINE

0-5s	Setting the table
5-10s	Her spot
10-15s	Her own dinner
15-20s	A carrot slice
20-25s	Napping on feet

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Setting the table): Dining area off the kitchen, evening, ordinary hanging lamp over a wooden table. The son, an 11-year-old boy with short curly hair, sets plates around the table. The dog walks over, sniffs a grey mat on the floor beside one chair, and lies down on it neatly. Sound: plates clinking, kitchen sounds, mom saying "she knows it's dinner time". 5-10s (Her spot): Same dining area, warm lamp light, low angle under the table edge. The daughter, a 7-year-old girl with two braids, climbs onto her chair. The dog lies on her mat right beside the chair, chin on her paws, watching the family pass a bowl of mashed potatoes overhead. Sound: chairs scraping, serving spoons clinking, family chatter. 10-15s (Her own dinner): Floor beside the dining table, lamp light, beige tile. The mom, a woman in her mid 30s with shoulder-length brown hair, sets a steel bowl of kibble on the dog's mat. The dog waits, then eats when the mom nods, while the family starts eating above. Sound: mom saying "okay", kibble crunching, forks on plates. 15-20s (A carrot slice): Same table in warm evening lamp light. The dad, a man in his late 30s with a short dark beard, leans down from his chair holding a raw carrot stick. The dog sits up politely on her mat and takes it gently, then lies back down crunching it. Sound: loud carrot crunch, kids laughing, dad saying "that's your veggies". 20-25s (Napping on feet): Under the dining table after dinner, view from the floor, warm lamp light from above, empty plates on the table edge. The dog lies stretched out with her head resting on the daughter's socked feet, eyes closing while the family keeps talking. Sound: family laughter, chairs creaking, the dog's long contented sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
