MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Waiting at the window): Living room front window with sheer curtains, late afternoon daylight, a couch against the wall. The dog stands on the floor with her front paws on the low window seat, looking out at the street, ears up, tail slowly moving. Sound: quiet house, clock ticking, a car passing outside. 5-10s (Dad arrives): Front hallway with shoes on a mat, late afternoon light from the open door. The dad, a man in his late 30s with a short dark beard and a work jacket, steps in. The dog wiggles in circles around his legs, tail swinging, and he scratches her ears. Sound: door opening, keys dropping in a bowl, dad saying "hey, girl". 10-15s (Kids burst in): Same hallway seconds later, daylight through the doorway. The son, an 11-year-old boy with short curly hair, and the daughter, a 7-year-old girl with two braids, rush in dropping backpacks. The dog spins from the dad to the kids, licking hands and bumping knees. Sound: backpacks thudding, kids shouting "we're home!", tags jingling wildly. 15-20s (Mom with groceries): Kitchen with white cabinets, early evening window light. The mom, a woman in her mid 30s with shoulder-length brown hair, sets two paper grocery bags on the counter. The dog trots in and sniffs the bags, then leans against the mom's legs as she bends to pet her. Sound: paper bags crinkling, mom laughing "hi, hi, I know", fridge opening. 20-25s (Flop in the middle): Living room couch in the evening, ordinary floor lamp on. The whole family sits squeezed on the couch. The dog climbs up and flops across the kids' laps with her head on the dad's knee, letting out a huge satisfied sigh. Sound: couch cushions squishing, family laughing, a deep doggy sigh.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
