MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Porch welcome): Grandma's small brick house with a white porch and potted geraniums, morning daylight. The grandma, a woman in her late 60s with short grey hair and glasses, holds the leash as the dog sniffs her porch rug. Grandma bends down and rubs her ears. Sound: birds, wind chimes, grandma saying "you're with me this week". 5-10s (Dinner at grandma's): Grandma's kitchen with yellow walls and linoleum floor, evening, an ordinary ceiling light on. The grandma sets the dog's steel bowl of kibble on the floor by the radiator. The dog waits a moment, then eats while grandma pats her back. Sound: kibble crunching, old clock ticking, grandma saying "good girl". 10-15s (Knitting company): Grandma's living room, afternoon window light, a floral armchair and a lace doily on the side table. The grandma sits knitting with purple yarn. The dog lies on the rug at her feet with her chin on grandma's slipper, eyes half closed. Sound: knitting needles clicking, a radio playing softly, the dog's sigh. 15-20s (Evening walk): Quiet residential street with old trees and parked cars, early evening light. The grandma walks slowly holding the purple leash, and the dog walks calmly right at her side, matching her pace and stopping when she stops to sniff a hedge. Sound: footsteps on the sidewalk, crickets, grandma humming. 20-25s (Foot of the bed): Grandma's bedroom at night, a small bedside lamp on, quilted bedspread. Grandma sits up in bed with her glasses on and holds her phone, screen facing away, on a call. The dog lies on a folded blanket at the foot of the bed, head up and listening. Sound: faint kids' voices from the phone saying "goodnight", grandma laughing softly.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
