Family Yard Sale Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The family yard sale with her as greeter: sitting by the tables, saying hi to a neighbor, rescuing her old toy from a box, resting in the shade with the daughter, and helping pack up.

TIMELINE

0-5s	Sitting by the tables
5-10s	Saying hi
10-15s	Rescuing her toy
15-20s	Shade break
20-25s	Packing up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Sitting by the tables): Driveway in front of the beige house, sunny Saturday morning, two folding tables with old toys, books and kitchen items, small blank colored dot stickers on them. The dog sits on the concrete beside the tables, watching the street with her ears up. Sound: birds, a car passing slowly, mom saying "our official greeter". 5-10s (Saying hi): Same driveway, bright morning daylight. A neighbor, a man in his 50s with a baseball cap, walks up and holds out his hand. The dog sniffs it politely and wags. The dad, a man in his late 30s with a short dark beard, stands beside her smiling. Sound: neighbor saying "well, hello there", friendly chatter, birds. 10-15s (Rescuing her toy): Beside a cardboard box of old stuffed toys on the driveway, sunny daylight. The dog pushes her nose into the box, pulls out a faded purple plush hippo, and trots away with it to the lawn, lying down with it between her paws. Sound: box rustling, family laughing, son saying "I guess that's not for sale". 15-20s (Shade break): Lawn beside the driveway under a big striped patio umbrella, midday sunshine. The daughter, a 7-year-old girl with two braids, sits on a folding chair with a cup of water. The dog lies in the shade beside her chair, panting gently, the hippo by her paws. Sound: soft breeze, umbrella flapping, distant lawn mower, panting. 20-25s (Packing up): Driveway in late afternoon light, tables half empty. The mom, a woman in her mid 30s with shoulder-length brown hair, folds a table leg. The dog walks beside her as she carries a nearly empty box toward the garage, the hippo still in the dog's mouth. Sound: table legs clacking, garage door rattling, mom laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

We sold most of the toys. She refused to part with one. Fair enough.
Would your dog let you sell their old toys?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
