MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Pitching the tent): Backyard with patchy grass and a wooden fence, early evening daylight. The dad, a man in his late 30s with a short dark beard, and the son, an 11-year-old boy with short curly hair, raise a small green dome tent. The dog walks around it sniffing the stakes. Sound: tent poles clicking, nylon rustling, dad saying "hold that side". 5-10s (Tent inspection): Same backyard at dusk, deep blue sky. The tent door is unzipped. The dog pokes her head inside, then steps in fully and sniffs the sleeping bags, her tail sticking out the door and wagging while the son laughs outside. Sound: nylon swishing, son laughing "she's moving in", crickets. 10-15s (Lantern sandwiches): On a blanket in front of the tent, night, a battery camping lantern giving soft white light. The dad and son eat sandwiches cross-legged. The dog lies beside them on the blanket with her chin on her paws, watching politely without begging, ears twitching at night sounds. Sound: crickets, paper wrappers crinkling, dad saying "just the guys". 15-20s (Guarding the doorway): Inside the small tent at night, the lantern turned low. The dad and son lie in sleeping bags, and the dog lies across the tent's doorway, head up and ears turning toward the dark yard, then slowly lowers her head. Sound: crickets, a distant dog barking, son whispering "she's on guard". 20-25s (Dewy morning): Backyard at sunrise, pale cool light, dew on the grass and the tent. The tent door unzips halfway and the dog pushes her head out, blinking at the morning, then steps out onto the wet grass, stretches long with her front legs out and shakes off. Sound: zipper, birds singing, dad yawning "morning, girl".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
