What Family Means to Her

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A day following her as she checks on every member of her family: waking the daughter, following dad to the garage, resting her head on grandma's knee, lying by the son's homework, and a bedtime check of every door.

TIMELINE

0-5s	Waking the daughter
5-10s	Following dad
10-15s	Grandma's knee
15-20s	Homework company
20-25s	Bedtime door check

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Waking the daughter): Kids' bedroom in early morning, soft grey daylight through curtains, striped duvet. The dog walks to the bed and rests her chin on the mattress beside the daughter, a 7-year-old girl with two braids, who opens her eyes and reaches out to stroke her nose. Sound: quiet house, sleepy giggle, daughter whispering "morning". 5-10s (Following dad): Garage with a concrete floor, shelves of paint cans and a workbench, daylight through the open garage door. The dad, a man in his late 30s with a short dark beard, carries a toolbox. The dog follows close behind and lies down by the workbench. Sound: toolbox clanking, birds outside, dad saying "come on, helper". 10-15s (Grandma's knee): Back porch with two wooden chairs, midday overcast light. The grandma, a woman in her late 60s with short grey hair and glasses, sits with a cup of tea. The dog walks up and rests her head on grandma's knee, and grandma strokes her ears slowly. Sound: wind chimes, birds, grandma saying "you're my sweet girl". 15-20s (Homework company): Kitchen table, late afternoon window light. The son, an 11-year-old boy with short curly hair, works in a notebook turned away from the camera. The dog lies on the floor right beside his chair, and he drops one hand down to rest on her head. Sound: pencil scratching, kitchen clock, the dog's soft sigh. 20-25s (Bedtime door check): Upstairs hallway at night, a small night light near the floor, bedroom doors half open. The dog walks slowly down the hallway, pokes her nose into the kids' room, then the parents' room, then lies down in the middle of the hallway facing the stairs. Sound: quiet house, soft pawsteps on carpet, a long sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
