Article Search in the Field

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An article search in a mown square of grass: the dog quarters back and forth, finds a small wooden block, then a key ring, and gets a treat reward and a ball toss.

TIMELINE

0-5s	Search square
5-10s	Quartering
10-15s	Wooden block found
15-20s	Key ring found
20-25s	Ball toss

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Search square): Freshly mown square of grass marked by four orange cones at the edge of a farm field, late morning, sunny with scattered clouds, a hedge behind. The dog sits at the handler's left leg at one corner, staring into the square, body quivering slightly with readiness. Sound: breeze, distant tractor engine, handler says "search". 5-10s (Quartering): Inside the mown grass square, sunny late morning with scattered clouds, cut grass clippings lying around. The dog trots back and forth in tight zigzag lines with his nose low over the grass, tail wagging slowly, covering the area methodically. Sound: paws on short grass, steady sniffing, crickets. 10-15s (Wooden block found): Mown grass square, sunny daylight, a small square wooden block lying in the clippings. The dog stops dead, lowers himself into a down with the block between his front paws, and looks over his shoulder at the handler without touching the block. Sound: handler says "yes", a quick treat crunch, birds. 15-20s (Key ring found): Far corner of the mown square, sunny with passing clouds, hedge in the background. The dog sniffs along the grass, slows, and lies down again pointing at a small metal key ring half hidden in the clippings, ears forward, completely still. Sound: faint jingle as the handler picks up the keys, handler praising. 20-25s (Ball toss): Open farm field next to the search square, sunny late morning, longer grass. The handler's hand throws an orange ball on a rope. The dog sprints after it, snatches it out of the grass and trots back swinging the rope proudly. Sound: ball thumping in the grass, panting, handler says "go get it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Search square

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
