20-25s	Sleeve carry

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Calm focus): Fenced protection sport field at a dog club, late afternoon, warm sunny light, short trimmed grass. The dog sits beside the handler's boots, perfectly still, watching a professional trainer in padded pants and a thick brown bite sleeve standing about twenty meters away near a tall fabric blind. Sound: quiet field, cicadas, handler says "steady". 5-10s (Run to the sleeve): Same sport field, sunny late afternoon, trimmed grass. The trainer in the padded sleeve steps sideways and raises the sleeve. On the handler's command, the dog runs straight across the grass and takes a full, firm grip on the padded sleeve, while the trainer stands sideways and absorbs the impact. Sound: fast paws, a thump on the sleeve, trainer exhaling. 10-15s (Instant out): Middle of the sport field, sunny late afternoon light. The dog holds the padded sleeve while the trainer stands still. The handler calls out and the dog releases instantly, drops back a step and sits in front of the trainer, watching calmly without touching him. Sound: handler says "out", sudden quiet, the dog panting. 15-20s (Calm guard): Sport field, warm late afternoon light, trimmed grass. The trainer stands motionless with the padded sleeve held low. The dog sits facing him, ears forward, completely still and relaxed in his body, as the handler walks up from behind and stands beside him. Sound: handler's footsteps on grass, distant traffic, birds. 20-25s (Sleeve carry): Edge of the sport field near the fence, sunny late afternoon light. The trainer slips the padded sleeve off and lets the dog have it. The dog trots a lap along the fence carrying the heavy sleeve in his mouth, head high, then drops it at the handler's feet. Sound: trainer laughing, sleeve thudding on grass, handler says "good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

Full grip, clean out, every single time.
The out is the part I'm proudest of.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
