Perfect Heel Practice

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Heel work in an empty church parking lot on a Sunday evening: the start, straight heeling, a left turn, an automatic sit and a ball reward from under the arm.

TIMELINE

0-5s	Ready position
5-10s	Straight heeling
10-15s	Left turn
15-20s	Automatic sit
20-25s	Ball from the arm

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Ready position): Empty asphalt parking lot behind a small church, Sunday evening, cloudy soft daylight, faded white parking lines. The dog sits tight against the handler's left leg, head tilted all the way up, staring at the handler's face, tail sweeping slowly across the asphalt. Sound: quiet lot, a car far away, handler says "heel". 5-10s (Straight heeling): Same empty parking lot, cloudy evening light, cracked asphalt. Camera held low at hip level. The dog prances along in perfect heel, shoulder at the handler's knee, head up and eyes on the handler, front paws lifting high with each step. Sound: claws ticking on asphalt, handler's sneakers, collar tag clinking. 10-15s (Left turn): Parking lot, cloudy evening light, a light pole and a strip of grass at the edge. The handler turns sharply to the left. The dog tucks his back end in tightly, pivots right alongside the handler's leg and keeps his eyes up the whole time without drifting. Sound: paws shuffling on asphalt, handler says "nice". 15-20s (Automatic sit): Middle of the empty parking lot, cloudy soft daylight, parking lines on the ground. The handler stops walking. The dog sits instantly and straight at the left leg, front paws lined up neatly with the handler's sneakers, still looking up without blinking. Sound: quiet, handler says "yes", a bird chirping. 20-25s (Ball from the arm): Same parking lot near the grass strip, cloudy evening light. The handler drops a red ball on a string from under the left arm. The dog catches it in the air, then runs a small happy circle around the handler, the string swinging from his mouth. Sound: ball snapping into his mouth, happy panting, handler laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ready position

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Empty asphalt parking lot behind a small church, Sunday evening, cloudy soft daylight, faded white parking lines. The dog sits tight against the handler's left leg, head tilted all the way up, staring at the handler's face, tail sweeping slowly across the asphalt. Sound: quiet lot, a car far away, handler says "heel".

Clip 2 | 5-10s | Straight heeling

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
