The Send-Away Exercise

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The classic send-away on a big grass field: the line-up, the fast straight run, the down at distance, the handler walking out and a joyful release.

TIMELINE

0-5s	Line-up
5-10s	Fast straight run
10-15s	Down at distance
15-20s	Handler walks out
20-25s	Joyful release

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Line-up): Large grass sports field outside town, cool morning, overcast grey sky, a few goalposts in the distance. The dog sits at the handler's left side. The handler's flat hand points straight down the field next to the dog's head, and the dog stares in the same direction. Sound: wind, distant crows, handler says "look". 5-10s (Fast straight run): Same open grass field, overcast morning light, wet green grass. On the command the dog takes off in a powerful straight gallop away from the camera, getting smaller down the field, ears back, running dead straight without looking back, small clumps of wet grass flicking up behind his paws. Sound: handler says "go", fading paw beats, wind. 10-15s (Down at distance): Far end of the grass field, overcast grey morning light, the dog small in the frame about forty meters away. The handler calls down and the dog drops flat into the grass mid-stride, sliding slightly, then lies completely still facing forward. Sound: handler says "down" loudly, wind, a crow cawing. 15-20s (Handler walks out): Grass field, overcast morning light, camera walking forward with the handler. The dog stays flat in the distance, getting closer as the handler walks out, only his ears moving and his head turning slightly to watch the handler approach across the wet grass. Sound: handler's footsteps in wet grass, steady breathing. 20-25s (Joyful release): Far end of the grass field, overcast light, goalposts behind. The handler arrives beside the dog and says the release word. The dog leaps up, spins once with his tail going wild, and jumps to bump the handler's open hand with his nose. Sound: handler says "free", happy whining, laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Line-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Large grass sports field outside town, cool morning, overcast grey sky, a few goalposts in the distance. The dog sits at the handler's left side. The handler's flat hand points straight down the field next to the dog's head, and the dog stares in the same direction. Sound: wind, distant crows, handler says "look".

Clip 2 | 5-10s | Fast straight run

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
