Long Down Under Distraction

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A long down at the park while the handler adds distractions: walking away, a friend jogging past, a rolling ball, the handler hiding behind a tree and a happy return.

TIMELINE

0-5s	The down
5-10s	Jogger passes
10-15s	Rolling ball
15-20s	Handler hides
20-25s	Happy return

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (The down): Quiet corner of a public park, mid-morning, cool overcast daylight, short grass with a few fallen leaves, park benches in the background. The dog lies in a neat down with his front legs straight out, head high. The handler's hand gives a flat palm signal and the handler walks backward away from him. Sound: park birds, distant children, handler says "stay". 5-10s (Jogger passes): Same park corner, overcast morning light, a gravel path running past a few meters away. A friend in running clothes jogs past along the path. The dog follows the jogger with his eyes only, ears twitching, but his body stays flat on the grass. Sound: footsteps crunching on gravel, the jogger's breathing, birds. 10-15s (Rolling ball): Park grass, overcast morning daylight, scattered leaves. A yellow tennis ball rolls slowly across the grass right past the dog's front paws. He glances at it, licks his lips once, then looks back toward the camera, staying in his down. Sound: ball rolling on grass, handler whispering "stay". 15-20s (Handler hides): Park, overcast daylight, filmed from behind a thick oak tree trunk. The camera peeks around the bark. In the distance the dog lies alone on the grass in a perfect down, head up, staring at the tree where the handler disappeared, not moving. Sound: handler giggling quietly, leaves rustling, distant traffic. 20-25s (Happy return): Park grass, overcast morning light, park benches behind. The handler walks back, kneels beside the dog and says the release word. The dog jumps up, wiggles his whole body, and presses his head against the handler's chest for scratches, tail sweeping the leaves. Sound: handler says "okay, free", happy whining, laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Quiet corner of a public park, mid-morning, cool overcast daylight, short grass with a few fallen leaves, park benches in the background. The dog lies in a neat down with his front legs straight out, head high. The handler's hand gives a flat palm signal and the handler walks backward away from him. Sound: park birds, distant children, handler says "stay".

Clip 2 | 5-10s | Jogger passes

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
