Agility Practice Run

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An agility practice run at the club on a breezy day: the start line, jumps, the tunnel, the weave poles and the pause table with a tug at the end.

TIMELINE

0-5s	Start line
5-10s	Jump line
10-15s	Through the tunnel
15-20s	Weave poles
20-25s	Pause table

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Start line): Outdoor agility field at a dog club, midday, partly cloudy and breezy, faded artificial turf with colorful jumps and a blue tunnel set out. The dog sits at the start line in a wait, ears perked, while the handler walks out ahead and turns back to face him. Sound: breeze, a flag flapping, handler says "wait". 5-10s (Jump line): Same agility field, partly cloudy midday light, three red and white bar jumps in a straight line on the turf. On release the dog flies over each jump in rhythm, tucking his front legs, landing softly and driving on to the next. Sound: paws on turf, handler says "over, over, over". 10-15s (Through the tunnel): Agility field, breezy partly cloudy daylight, a long curved blue fabric tunnel lying on the turf. The dog dives into the tunnel opening at speed, the fabric bulging as he runs through, and bursts out of the far end toward the handler. Sound: tunnel fabric rustling, thumping inside, handler says "tunnel". 15-20s (Weave poles): Agility field, partly cloudy midday light, a line of twelve upright white weave poles on the turf. The dog enters the poles correctly and bends his body left and right through each gap in a quick rhythmic motion, tail swinging behind. Sound: poles ticking against his body, quick paw steps, handler counting softly. 20-25s (Pause table): Agility field, breezy daylight, a low square wooden table with a grippy top. The dog hops onto the table, drops into a down and waits, panting, until the handler releases him with a tug toy pulled from a jacket pocket. Sound: table creaking, heavy panting, handler says "okay" and laughs.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Start line

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Outdoor agility field at a dog club, midday, partly cloudy and breezy, faded artificial turf with colorful jumps and a blue tunnel set out. The dog sits at the start line in a wait, ears perked, while the handler walks out ahead and turns back to face him. Sound: breeze, a flag flapping, handler says "wait".

Clip 2 | 5-10s | Jump line

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. The dog hops onto the table, drops into a down and waits, panting, until the handler releases him with a tug toy pulled from a jacket pocket. Sound: table creaking, heavy panting, handler says "okay" and laughs.

FACEBOOK CAPTION

A big working dog doing weave poles is my favorite thing.
Clean run, zero bars down.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
