Herding Ducks Lesson

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A beginner herding lesson with ducks at a small farm: watching the ducks, wide calm circling, lying down on command, walking up slowly and guiding the ducks into their pen.

TIMELINE

0-5s	Watching the ducks
5-10s	Wide circling
10-15s	Down on command
15-20s	Walk up
20-25s	Into the pen

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Watching the ducks): Small fenced grass arena on a farm, morning, light overcast sky with soft daylight, a wooden duck pen in one corner. A small group of white ducks stands huddled in the middle. The dog stands beside the handler at the gate, ears forward, watching them intently with a closed mouth. Sound: ducks quacking softly, a rooster far away, instructor says "easy". 5-10s (Wide circling): Same fenced farm arena, overcast morning light, short grass. The dog trots in a wide, calm circle around the ducks, keeping a big distance, body curved toward them. The ducks bunch together and waddle calmly in one direction along the wooden fence, never rushed. Sound: ducks waddling and quacking, paws on grass, instructor says "away". 10-15s (Down on command): Farm arena, soft overcast daylight, the duck group standing calmly in the middle. The instructor raises a hand and calls down. The dog drops into a down in the grass at a distance, eyes still on the ducks, completely still. Sound: instructor says "lie down", calm quacking, wind. 15-20s (Walk up): Farm arena, overcast morning light, short grass and a wooden fence. The dog stands and walks straight toward the ducks at a calm, steady pace, head low. The ducks move together away from him toward the open pen in the corner. Sound: instructor says "walk up", soft quacking, footsteps. 20-25s (Into the pen): Corner of the farm arena, overcast daylight, a small wooden pen with an open gate. The ducks waddle calmly through the gate. The dog stops a few meters back and lies down while the instructor closes the gate behind the ducks. Sound: gate latch clicking, ducks quacking inside the pen, handler says "good job".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the ducks

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Small fenced grass arena on a farm, morning, light overcast sky with soft daylight, a wooden duck pen in one corner. A small group of white ducks stands huddled in the middle. The dog stands beside the handler at the gate, ears forward, watching them intently with a closed mouth. Sound: ducks quacking softly, a rooster far away, instructor says "easy".

Clip 2 | 5-10s | Wide circling

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. FACEBOOK CAPTION

First herding lesson and he was a total gentleman.
The ducks did not seem worried at all.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
