Calm Vet Handling Practice

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Practice for vet visits at the clubhouse: standing on the mat, ear check, teeth check, a friend with a stethoscope and a paw check with treats.

TIMELINE

0-5s	Standing on the mat
5-10s	Ear check
10-15s	Teeth check
15-20s	Stethoscope
20-25s	Paw check

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Standing on the mat): Inside a small dog club clubhouse, rainy afternoon, grey daylight through a window plus ordinary ceiling lights, a worn rubber mat on a tiled floor and a kettle on a counter. The dog stands square on the mat, calm and relaxed, while the handler's hands run along his back. Sound: rain on the window, handler says "stand", quiet hum of the fridge. 5-10s (Ear check): Same clubhouse, rainy grey daylight and ceiling lights, rubber mat on the tile floor. The handler's hand gently folds back one of the dog's upright ears and looks inside. The dog stays still, blinking slowly, then gets a treat from the other hand. Sound: soft praise, treat crunching, rain pattering. 10-15s (Teeth check): Clubhouse interior, rainy afternoon light from a window, ordinary ceiling lights, rubber mat. The handler's thumbs gently lift the dog's lips to show his white teeth and gums for a second. He stands calmly on the mat and licks his nose after, tail relaxed. Sound: handler says "nice teeth", rain, a chair creaking. 15-20s (Stethoscope): Clubhouse, rainy grey light and ceiling lights, tiled floor. A friend kneels beside the mat and presses a stethoscope to the dog's chest behind the front leg. The dog sniffs the friend's sleeve once and then stands still, tail hanging relaxed. Sound: friend says "good boy, deep breaths", rain on the roof. 20-25s (Paw check): Same clubhouse, rainy afternoon, ceiling lights. The dog lies down on the rubber mat. The handler's hand lifts a back paw and gently spreads the toes, then gives a treat. The dog rolls slightly onto his side with a sigh, totally relaxed. Sound: treat crunching, a long sigh, handler laughing quietly.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Standing on the mat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Inside a small dog club clubhouse, rainy afternoon, grey daylight through a window plus ordinary ceiling lights, a worn rubber mat on a tiled floor and a kettle on a counter. The dog stands square on the mat, calm and relaxed, while the handler's hands run along his back. Sound: rain on the window, handler says "stand", quiet hum of the fridge.

Clip 2 | 5-10s | Ear check

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
