Climbing the Ladder Obstacle

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Confidence work on a low, wide training ladder with a spotter: approaching, first steps, climbing carefully, standing on the platform and walking down the ramp.

TIMELINE

0-5s	The approach
5-10s	First steps
10-15s	Careful climb
15-20s	On the platform
20-25s	Down the ramp

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (The approach): Search and rescue training yard, mid-morning, sunny with a few clouds, packed dirt ground. A low, wide wooden training ladder with flat rungs leads up to a small platform barely higher than a table. The dog walks up to the bottom rung on a loose leash and sniffs it. Sound: birds, footsteps on dirt, handler says "check it out". 5-10s (First steps): Same training yard, sunny mid-morning light, the low wide wooden ladder. A spotter in a grey t-shirt stands right beside the ladder with hands ready near the dog's side. The dog places his front paws on the first flat rung, then the second, carefully. Sound: paws tapping wood, spotter says "easy, buddy". 10-15s (Careful climb): Training yard, sunny with a few clouds. The dog climbs the low wide ladder one rung at a time, placing each paw deliberately on the flat wooden rungs, the spotter walking alongside with one hand hovering near his hip, ready but not touching. Sound: wood creaking softly, slow paw steps, handler praising quietly. 15-20s (On the platform): Top of the low training ladder, sunny mid-morning light, a small square wooden platform with a rubber mat. The dog steps onto the platform, stands tall and looks around the yard, tail wagging slowly, while the spotter steadies him with a hand on his harness. Sound: handler says "look at you", birds, light breeze. 20-25s (Down the ramp): Training yard, sunny daylight, a wide wooden ramp with grip slats leading down from the platform to the dirt. The dog walks down the ramp calmly with the spotter beside him, hops off the last slat and trots to the handler for a treat. Sound: paws on slats, treat pouch rustling, handler says "good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The approach

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Search and rescue training yard, mid-morning, sunny with a few clouds, packed dirt ground. A low, wide wooden training ladder with flat rungs leads up to a small platform barely higher than a table. The dog walks up to the bottom rung on a loose leash and sniffs it. Sound: birds, footsteps on dirt, handler says "check it out".

Clip 2 | 5-10s | First steps

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Training yard, sunny daylight, a wide wooden ramp with grip slats leading down from the platform to the dirt. The dog walks down the ramp calmly with the spotter beside him, hops off the last slat and trots to the handler for a treat. Sound: paws on slats, treat pouch rustling, handler says "good boy".

FACEBOOK CAPTION

Low ladder, big confidence.
He used to refuse the first rung. Look at him now.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
