Staying Calm Around Traffic Noise

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Environmental training in town: sitting calmly by a busy road, a bus passing, a loud truck, walking past roadworks and a relaxed down outside a cafe.

TIMELINE

0-5s	Sitting by the road
5-10s	Bus passes
10-15s	Loud truck
15-20s	Past the roadworks
20-25s	Cafe down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Sitting by the road): Town sidewalk next to a busy two-lane road, weekday morning, overcast grey daylight, wet asphalt from earlier rain. The dog sits calmly at the handler's left leg on a short leash, watching cars pass at a normal distance, ears relaxed, mouth slightly open. Sound: cars swishing past on wet road, distant horn, handler says "good". 5-10s (Bus passes): Same town sidewalk, overcast morning, a bus stop shelter nearby. A large city bus pulls past close to the curb with a loud hiss of brakes. The dog glances at it, blinks, and stays sitting, then looks back up at the handler. Sound: bus engine rumbling, brakes hissing, handler says "nice job". 10-15s (Loud truck): Town sidewalk at an intersection, grey overcast daylight, traffic lights and wet pavement. A delivery truck rumbles past and its engine roars as it accelerates. The dog stays standing beside the handler, ears flick back for a second, then he takes a treat calmly. Sound: heavy engine roar, rattling truck, treat crunching. 15-20s (Past the roadworks): Town street, overcast morning, a fenced roadworks area with orange barriers and a small digger working behind them. The dog walks past in a loose heel, glancing at the noisy machine but keeping his pace, tail level, the handler's sneakers walking right beside him. Sound: digger engine, metal clanging, footsteps on pavement. 20-25s (Cafe down): Outside a small cafe on the same street, overcast daylight, metal tables on the sidewalk, cars passing behind. The dog lies down under the handler's chair, chin on his paws, eyes half closed, as traffic continues to roll by on the wet street. Sound: traffic, cups clinking, handler says "he's so chill".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sitting by the road

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. FACEBOOK CAPTION

A working dog has to be calm everywhere, not just on the field.
Buses, trucks, diggers, nothing.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
