Cool Down After Training

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The calm end of a training evening: a slow cool-down walk, a stretch, a drink, brushing the dust off and resting on a blanket by the car as the sun goes down.

TIMELINE

0-5s	Cool-down walk
5-10s	The stretch
10-15s	Long drink
15-20s	Brushing the dust
20-25s	Rest by the car

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Cool-down walk): Edge of the dog club training field, evening, low warm sunlight across the grass, long shadows, chain-link fence and an empty field behind. The dog walks beside the handler on a loose leash at a relaxed pace, tongue out, tail swinging loosely. Sound: crickets starting, slow footsteps, distant dog barking once. 5-10s (The stretch): Same training field, evening sun low behind the trees, warm light on the grass. The dog stops, stretches his front legs far forward with his rear in the air, then stretches his back legs out behind him one at a time and gives a big yawn. Sound: a squeaky yawn, crickets, handler laughing softly. 10-15s (Long drink): Beside a water tap on a post at the club field, evening, low sunlight, a dented steel bowl on the concrete. The dog drinks for a long time, lapping steadily, then lifts his head with water dripping from his chin and licks his lips. Sound: lapping water, dripping, a car leaving the parking lot. 15-20s (Brushing the dust): Gravel parking area by the club field, evening, warm low sunlight, the open back of an SUV. The handler's hand runs a rubber grooming brush along the dog's back, dust lifting off his black coat. He leans into the brush with his eyes half closed. Sound: brush strokes, gravel, handler says "dusty boy". 20-25s (Rest by the car): Gravel parking area, dusk, the sun just below the trees, soft fading daylight. The dog lies on a folded old blanket next to the car's back tire, head resting on his front paws, eyes slowly closing while the handler's hand strokes his ear. Sound: crickets, quiet breathing, handler whispers "good work today".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Cool-down walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Edge of the dog club training field, evening, low warm sunlight across the grass, long shadows, chain-link fence and an empty field behind. The dog walks beside the handler on a loose leash at a relaxed pace, tongue out, tail swinging loosely. Sound: crickets starting, slow footsteps, distant dog barking once.

Clip 2 | 5-10s | The stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
