Morning Mist on the Pasture

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early misty walk on an open pasture: stepping into the mist, a still stand, sniffing the wet grass, a short run through the haze and shaking off the dew.

TIMELINE

0-5s	Into the mist
5-10s	Still stand
10-15s	Sniffing wet grass
15-20s	Run through haze
20-25s	Shaking off dew

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Into the mist): Open pasture at dawn, thick white mist hanging low, pale grey light, soaking wet grass and a wooden fence fading into the haze. The dog walks slowly out ahead of the owner into the mist, his dark shape getting softer with each step, then he stops and looks back. Sound: silence, dripping, soft footsteps in wet grass. 5-10s (Still stand): Middle of the misty pasture, pale early daylight, visibility only about thirty meters. The dog stands completely still, ears forward, staring into the white haze where faint shapes of trees appear, his breath making small puffs in the cold air. Sound: a distant cow lowing, a dripping fence, the dog's soft breathing. 10-15s (Sniffing wet grass): Close view in the misty pasture, cold grey dawn light, beads of water on every blade of grass. The dog lowers his head and sniffs his way forward through the wet grass, his muzzle and legs getting soaked, tail slowly swinging. Sound: sniffing, grass swishing, a bird starting to sing. 15-20s (Run through haze): Open misty pasture, flat pale morning light. The owner tosses a worn rubber ball a short distance and the dog bursts after it, disappearing partly into the mist, then comes trotting back out of the haze with the ball in his mouth. Sound: paws thudding on soft ground, owner laughing "where'd you go?". 20-25s (Shaking off dew): Edge of the pasture by the wooden fence, mist starting to thin, cool early daylight. The dog drops the ball at the owner's wet boots and gives a big full-body shake, water spraying off his coat toward the camera. His tail wags as he looks up, waiting for another throw. Sound: big shake, water droplets hitting the phone, owner says "hey!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Into the mist

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Open pasture at dawn, thick white mist hanging low, pale grey light, soaking wet grass and a wooden fence fading into the haze. The dog walks slowly out ahead of the owner into the mist, his dark shape getting softer with each step, then he stops and looks back. Sound: silence, dripping, soft footsteps in wet grass.

Clip 2 | 5-10s | Still stand

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
