Leaping Over the Creek

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A woodland walk to a narrow shallow creek: approaching the bank, sizing it up, the leap across, the leap back on the owner's cue and a drink from the shallows.

TIMELINE

0-5s	Approaching the creek
5-10s	Sizing it up
10-15s	The leap
15-20s	Leap back
20-25s	Drinking the shallows

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Approaching the creek): Woodland trail in late morning, dappled daylight through leafy trees, a narrow shallow creek about one meter wide with mossy low banks. The dog trots down the dirt path toward the water, ears up, and slows down as he reaches the bank. Sound: trickling water, birds, leaves rustling. 5-10s (Sizing it up): Low grassy bank of the narrow creek, clear shallow water over pebbles, dappled forest light. The dog stands at the edge and looks across at the other bank, weight shifting back onto his hind legs, front paws treading in place, focused. Sound: water babbling, owner says "go on, you can do it". 10-15s (The leap): Same narrow shallow creek in the woods, soft daylight. The dog springs off the low bank and clears the small stream in one easy bound, landing on the flat mossy ground on the other side and trotting a few steps before turning around. Sound: a thump of paws landing, splash of a pebble, owner cheering "yes!". 15-20s (Leap back): Opposite low bank of the shallow creek, dappled woodland light, ferns behind. The owner taps their leg and the dog jumps back across the narrow water in one smooth hop, landing beside the owner's hiking boots and looking up. His tail wags hard and he leans against the owner's knee. Sound: paws landing on dirt, panting, owner says "good jump". 20-25s (Drinking the shallows): Edge of the narrow creek where the water is ankle deep over flat stones, soft forest daylight. The dog steps his front paws into the clear water and laps from the stream, drips falling from his chin, then lifts his head and looks downstream. Sound: lapping water, trickling creek, a woodpecker tapping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Approaching the creek

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Woodland trail in late morning, dappled daylight through leafy trees, a narrow shallow creek about one meter wide with mossy low banks. The dog trots down the dirt path toward the water, ears up, and slows down as he reaches the bank. Sound: trickling water, birds, leaves rustling.

Clip 2 | 5-10s | Sizing it up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
