Running Through the Mountain Meadow

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A sunny day in an alpine meadow: a long run through the flowers, a ball retrieve, rolling in the grass, a pause to watch marmot holes and a rest in the shade of a pine.

TIMELINE

0-5s	Meadow run
5-10s	Ball retrieve
10-15s	Rolling in grass
15-20s	Watching marmot holes
20-25s	Rest in shade

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Meadow run): Wide flat mountain meadow on a sunny late morning, bright natural daylight, knee-high grass with small yellow and purple wildflowers, pine trees and rocky peaks far behind. The dog runs in a big loose circle through the grass, ears back, tail out. Sound: grass swishing, wind, owner laughing. 5-10s (Ball retrieve): Same open meadow, bright clear daylight, mountains in the background. The owner throws a worn orange ball and the dog sprints after it across the flowers, scoops it up and runs back, dropping it near the owner's trail shoes. He spits out the ball and drops into a crouch, ready again. Sound: paws drumming the ground, panting, owner says "nice catch". 10-15s (Rolling in grass): Soft patch of short meadow grass, sunny daylight, wildflowers around. The dog drops down and rolls onto his back, wriggling with all four legs in the air, grass sticking to his coat, then flips back onto his belly. He sneezes once and lies there panting, looking pleased with himself. Sound: grunting, grass rustling, owner chuckling. 15-20s (Watching marmot holes): Edge of the mountain meadow near a pile of rocks, bright midday daylight. The dog stands very still a few meters from the rocks, ears forward, head tilted, watching a small burrow opening in the ground where a whistle came from. He stays put on the owner's "leave it". Sound: a sharp marmot whistle in the distance, owner says "leave it". 20-25s (Rest in shade): Shade under a lone pine at the side of the meadow, bright sunny daylight beyond, pine needles on the ground. The dog lies down in the cool shade, panting with tongue out, and watches the open meadow while the owner sits beside him. Sound: heavy panting, wind in the pine, insects buzzing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Meadow run

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Wide flat mountain meadow on a sunny late morning, bright natural daylight, knee-high grass with small yellow and purple wildflowers, pine trees and rocky peaks far behind. The dog runs in a big loose circle through the grass, ears back, tail out. Sound: grass swishing, wind, owner laughing.

Clip 2 | 5-10s | Ball retrieve

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
