Watching Over the Flock at Dawn

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Dawn on a small sheep farm where the dog quietly watches the flock: walking out with the farmer, lying by the fence, watching sheep graze, a calm walk along the field and a pat from the farmer.

TIMELINE

0-5s	Walking out
5-10s	Lying by fence
10-15s	Watching sheep
15-20s	Walk along field
20-25s	Pat from farmer

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Walking out): Small sheep farm at dawn, cool pale light before sunrise, frosty grass, a wooden fence with a field behind it. The dog walks calmly beside the owner's rubber boots along a dirt track toward the sheep field, steady and quiet, tail low. Sound: boots on frozen dirt, distant bleating, a rooster. 5-10s (Lying by fence): Outside the wooden fence of the sheep field, early dawn light, a small flock of sheep grazing about thirty meters away on the other side. The dog lies down in the frosty grass by the fence post, head up, watching the flock calmly. Sound: sheep bleating, grass being chewed, cold quiet morning. 10-15s (Watching sheep): Close view from behind the dog lying at the fence of the sheep field, soft early daylight. Through the fence wires, a few woolly sheep slowly graze and wander. The dog's ears follow their movement, his head turning slightly, body relaxed and still. Sound: soft bleats, a bell on one sheep, the dog's calm breathing. 15-20s (Walk along field): Grassy path running along the outside of the sheep field fence, first sunlight just touching the hilltop, cold pale light. The dog walks slowly along the fence at the owner's side, glancing at the flock but staying calm and on the path. Sound: footsteps, sheep moving, owner says "easy, good boy". 20-25s (Pat from farmer): By the wooden gate of the sheep field in early morning light, frost melting on the grass. The owner crouches and strokes the dog's head and chest with a work-gloved hand while the dog sits, leaning in a little, still looking at the sheep. Sound: glove rubbing fur, a happy sigh, owner says "good work this morning".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Walking out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
