Trail Ride With Horse and Rider

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog joins a calm trail ride, filmed by the rider from the saddle: trotting alongside at a distance, a sit while the horse passes a gate, a stream crossing, a rest stop and walking home.

TIMELINE

0-5s	Trotting alongside
5-10s	Sit at gate
10-15s	Stream crossing
15-20s	Rest stop
20-25s	Walking home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Trotting alongside): Wide dirt bridle path through open fields in the afternoon, soft natural daylight, a horse's brown ears visible at the bottom of the frame from the rider's point of view. The dog trots on the grassy verge several meters to the side of the horse, calm and steady. Sound: hooves clopping, saddle creaking, birds. 5-10s (Sit at gate): Wooden farm gate on the bridle path, afternoon daylight, a person on foot holding the gate open. The dog sits calmly on the grass well to the side, watching as the horse walks slowly through the opening, staying put until called. Sound: hooves on dirt, gate creaking, rider says "stay, good". 10-15s (Stream crossing): Shallow wide stream crossing on the trail, afternoon daylight, smooth pebbles, water barely ankle deep. The dog splashes across a few meters downstream from the horse, keeping his distance, and waits on the far bank. He shakes off briefly on the bank, then stands calmly watching the horse climb out of the stream. Sound: water splashing, hooves in water, a horse snort. 15-20s (Rest stop): Shady spot under a big oak tree beside the bridle path, afternoon light through leaves. The horse stands tied at a fence post in the background and the dog lies in the grass a good distance away, panting, watching calmly. Sound: horse tail swishing, panting, leaves rustling. 20-25s (Walking home): Long dirt lane leading back toward a stable yard, late afternoon daylight, fields on both sides. From the saddle view, the dog walks ahead on the grassy edge of the lane, relaxed, tail wagging, keeping a calm distance from the horse. Sound: slow hoof beats, a distant whinny, rider says "almost home".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Trotting alongside

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Wide dirt bridle path through open fields in the afternoon, soft natural daylight, a horse's brown ears visible at the bottom of the frame from the rider's point of view. The dog trots on the grassy verge several meters to the side of the horse, calm and steady. Sound: hooves clopping, saddle creaking, birds.

Clip 2 | 5-10s | Sit at gate

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
