Desert Canyon Hike

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cool early morning hike through a wide desert canyon: walking the sandy wash, sniffing sagebrush, a water break, waiting in the shade of a rock wall and trotting back to the trailhead.

TIMELINE

0-5s	Sandy wash walk
5-10s	Sniffing sagebrush
10-15s	Water break
15-20s	Shade by rock wall
20-25s	Back to trailhead

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Sandy wash walk): Wide flat sandy wash in a desert canyon at early morning, cool soft daylight, red rock walls far on both sides, scattered sagebrush. The dog walks ahead on the sand in the middle of the wash, leaving pawprints, ears up and alert. Sound: crunching sand, a breeze, a canyon wren singing. 5-10s (Sniffing sagebrush): Low grey-green sagebrush bush beside the sandy trail, early morning canyon light, red dirt and pebbles. The dog stops and sniffs the base of the bush thoroughly, then lifts his head and looks up the canyon. His tail swings gently as he takes in the morning scents of the canyon. Sound: sniffing, dry leaves rustling, owner says "smells good?". 10-15s (Water break): Sandy canyon floor in cool morning shade, red rocks around. The owner kneels and pours water from a hydration bottle into a collapsible bowl. The dog drinks eagerly, water splashing onto the dry sand and darkening it. He pauses, licks his lips and drinks a little more before stepping back. Sound: pouring water, lapping, owner says "drink up". 15-20s (Shade by rock wall): Base of a tall red sandstone wall at the side of the wide wash, cool shade, bright morning sky above. The dog lies down in the cool sand in the shadow of the rock, panting lightly, watching the trail ahead. Sound: quiet canyon, soft panting, a lizard rustling. 20-25s (Back to trailhead): Sandy trail leading out of the canyon toward a small dirt parking area, morning light getting brighter. The dog trots ahead on the path with a happy bounce, tail up, glancing back at the owner every few steps. The low sun is still soft and the air is cool. Sound: paws on sand, owner says "good hike, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sandy wash walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Wide flat sandy wash in a desert canyon at early morning, cool soft daylight, red rock walls far on both sides, scattered sagebrush. The dog walks ahead on the sand in the middle of the wash, leaving pawprints, ears up and alert. Sound: crunching sand, a breeze, a canyon wren singing.

Clip 2 | 5-10s | Sniffing sagebrush

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
