Coastal Dunes Patrol

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A breezy walk through coastal dunes: climbing the sandy path, a watch over the beach grass, digging, a run on the flat sand and a rest by a driftwood log.

TIMELINE

0-5s	Sandy path climb
5-10s	Watching over grass
10-15s	Digging
15-20s	Run on flat sand
20-25s	Rest by driftwood

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Sandy path climb): Narrow sandy path between low coastal dunes, breezy overcast afternoon, tufts of beach grass bending in the wind, wooden fence posts along the path. The dog walks up the soft sand ahead of the owner, paws sinking a little with each step. Sound: wind, waves in the distance, sand shifting. 5-10s (Watching over grass): Top of a low rounded dune, flat grey afternoon light, beach grass all around and the sea in the far background. The dog stands still among the grass, ears forward and fur blowing, watching a few gulls circling over the beach. Sound: gulls crying, wind gusts, rolling surf. 10-15s (Digging): Soft sandy hollow between the dunes, overcast afternoon light. The dog digs fast with his front paws, sand flying back between his legs, then shoves his nose into the hole and sniffs before looking up with sand on his muzzle. Sound: sand spraying, snorting, owner laughing. 15-20s (Run on flat sand): Wide flat damp sand at the bottom of the dunes, grey daylight, gentle waves far off. The owner throws a rope toy and the dog sprints across the firm sand, grabs it and gallops back, paws leaving deep prints. He shakes the rope toy once proudly before dropping it at the owner's feet. Sound: paws pounding wet sand, distant waves, owner says "get it!". 20-25s (Rest by driftwood): Large bleached driftwood log at the foot of the dunes, cloudy afternoon light, sea breeze. The dog lies down in the sand beside the log with the rope toy between his paws, panting, sand stuck to his black coat. His eyes half close as he relaxes in the sea breeze. Sound: waves, panting, wind across the sand.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sandy path climb

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Narrow sandy path between low coastal dunes, breezy overcast afternoon, tufts of beach grass bending in the wind, wooden fence posts along the path. The dog walks up the soft sand ahead of the owner, paws sinking a little with each step. Sound: wind, waves in the distance, sand shifting.

Clip 2 | 5-10s | Watching over grass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

Sand in every corner of the car. Totally worth it.
Who else has a beach dog?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
