The Forest Ranger's Companion

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A day out with a forest ranger and the dog: riding in the truck bed crate, walking a fire road, sitting while the ranger checks a trail marker, sniffing a fallen tree and a break on the tailgate.

TIMELINE

0-5s	Truck crate ride
5-10s	Fire road walk
10-15s	Sit at marker
15-20s	Sniffing fallen tree
20-25s	Tailgate break

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Truck crate ride): Gravel forest road in the morning, soft daylight through tall firs, a green pickup truck parked with a secured dog crate in the truck bed. The dog sits inside the open crate, ears up, then hops down when the ranger's gloved hand gives the signal. Sound: engine ticking, birds, ranger says "okay, out". 5-10s (Fire road walk): Wide dirt fire road through the forest, morning sunlight in patches, tall fir trees on both sides. The dog walks steadily at the side of the ranger's work boots and khaki trousers, looking around alertly. Every few steps he glances up at the ranger, then back to the trees ahead, ears turning. Sound: boots on gravel, a woodpecker, a radio crackling softly. 10-15s (Sit at marker): Wooden trail post at a fork in the forest path, plain with no writing visible, dappled morning light. The dog sits calmly beside the post while the ranger's hands check it, his head turning to watch the woods. He stays sitting without being asked again, tail resting on the dirt. Sound: wind in trees, a jay calling, the dog's soft breathing. 15-20s (Sniffing fallen tree): Large mossy fallen tree beside the fire road, soft forest daylight, ferns around. The dog walks along the trunk sniffing the bark carefully, then stops at the broken end and sniffs the dirt underneath, ears forward. His tail wags slowly as he works the scent, then he looks back at the ranger. Sound: deep sniffing, leaves crackling, ranger says "find something?". 20-25s (Tailgate break): Open tailgate of the green pickup on the gravel forest road, midday light through the trees. The dog lies on a blanket on the tailgate next to the ranger, who pours him water into a metal bowl. He drinks, then rests his chin on the blanket. Sound: water pouring, lapping, ranger says "good partner".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Truck crate ride

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Gravel forest road in the morning, soft daylight through tall firs, a green pickup truck parked with a secured dog crate in the truck bed. The dog sits inside the open crate, ears up, then hops down when the ranger's gloved hand gives the signal. Sound: engine ticking, birds, ranger says "okay, out".

Clip 2 | 5-10s | Fire road walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Wide dirt fire road through the forest, morning sunlight in patches, tall fir trees on both sides. The dog walks steadily at the side of the ranger's work boots and khaki trousers, looking around alertly. Every few steps he glances up at the ranger, then back to the trees ahead, ears turning. Sound: boots on gravel, a woodpecker, a radio crackling softly.

Clip 3 | 10-15s | Sit at marker

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Wooden trail post at a fork in the forest path, plain with no writing visible, dappled morning light. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
