# Hike to the Old Fire Lookout Tower

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

A hike up to an old fire lookout: climbing the forest switchbacks, reaching the clearing, waiting at the base of the tower, resting on the fenced lower platform and a snack break.

## TIMELINE

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Switchback climb): Wide forest switchback trail on a clear morning, bright daylight through pine trees, packed dirt and roots. The dog climbs ahead at a steady pace, tail level, pausing at the turn of the switchback to wait for the owner. The air is cool and the trail is wide and safe. Sound: boots on dirt, heavy breathing, birds. 5-10s (Reaching clearing): Flat grassy clearing at the top of the trail, bright late morning daylight, an old wooden fire lookout tower on stilts in the middle. The dog trots out into the open grass, stops and looks up at the tall structure, ears forward. Sound: wind, owner says "we made it". 10-15s (Waiting at base): Base of the old wooden lookout tower, bright daylight, weathered beams and a closed stairway behind a chain. The dog lies down on the flat dirt at the foot of the tower in its shadow, calm and relaxed, watching the owner. Sound: wind through the beams, a creak of wood, panting. 15-20s (Fenced lower platform): Low wooden deck about knee height at the side of the lookout tower, enclosed by a solid wooden railing, reached by two wide steps, bright daylight. The dog sits on the deck inside the railing next to the owner's legs, looking out over the treetops. Sound: wind, distant birds, owner says "nice view, huh". 20-25s (Snack break): Same fenced lower platform of the lookout tower, bright midday daylight, a backpack on the boards. The owner's hand offers a dog biscuit and the dog takes it gently, crunches it, then licks his lips and looks up for more. Sound: crunching, wind, owner laughing "that's all".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
