Watching the Thunderstorm From the Porch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A summer storm watched from a covered porch: the dog watching the sky darken, rain starting, a thunder rumble, calmly lying by the owner's chair and stepping out after it passes.

TIMELINE

0-5s	Watching the sky
5-10s	Rain starts
10-15s	Thunder rumble
15-20s	Lying by chair
20-25s	After the storm

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Watching the sky): Covered wooden front porch of a farmhouse in the late afternoon, dark grey storm clouds rolling in over a field, dim natural light. The dog stands at the top of the porch steps under the roof, ears forward, staring at the darkening sky. Sound: wind picking up, a wind chime, distant rumbling. 5-10s (Rain starts): Same covered porch, dim stormy daylight, heavy rain beginning to pour off the roof edge in a curtain. The dog sits on the porch boards watching the rain hit the gravel driveway, head tilting at the sound, staying dry under the roof. Sound: rain drumming on the tin roof, water splashing. 10-15s (Thunder rumble): Covered porch in the dark storm light, rain pouring, a flash briefly brightening the field. The dog's ears twitch at the following thunder rumble but he stays sitting calmly, then looks back at the camera. His tail rests calmly on the boards and his breathing stays slow and relaxed through the storm. Sound: rolling thunder, pouring rain, owner says "you're okay". 15-20s (Lying by chair): Porch in dim stormy light, an old wooden rocking chair with the owner's legs and slippers visible. The dog lies down beside the chair on a worn porch rug, chin on his paws, watching the rain calmly. Every now and then his eyes close for a moment and then open again to the rain. Sound: steady rain, chair creaking, a calm sigh. 20-25s (After the storm): Front yard after the rain, brightening grey daylight, puddles on the gravel and dripping trees. The dog walks down the porch steps and sniffs the wet grass, then stands in the yard and shakes his head, ears flapping. Water drips from the porch roof edge behind him as the clouds break up. Sound: dripping water, birds starting to sing again, owner says "all done".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the sky

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Covered wooden front porch of a farmhouse in the late afternoon, dark grey storm clouds rolling in over a field, dim natural light. The dog stands at the top of the porch steps under the roof, ears forward, staring at the darkening sky. Sound: wind picking up, a wind chime, distant rumbling.

Clip 2 | 5-10s | Rain starts

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
