First Light on the Farm

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The very start of a farm day: the dog stretching out of the barn, greeting the chickens through the fence, walking the lane, sitting with the owner at sunrise and following the feed bucket.

TIMELINE

0-5s	Morning stretch
5-10s	Chickens through fence
10-15s	Walking the lane
15-20s	Sunrise sit
20-25s	Following the bucket

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Morning stretch): Open doorway of an old wooden barn at dawn, cool blue early light, straw on the concrete floor. The dog walks out into the yard and does a long full stretch, front legs out and rear up, then a big yawn. Sound: a big yawn, a rooster crowing, barn door creaking. 5-10s (Chickens through fence): Wire fence of a chicken run in the farmyard, early dawn light, a few brown hens scratching inside. The dog stands calmly outside the fence watching them, ears up, tail slowly wagging, not moving closer. One hen comes close to the wire and he simply sniffs the air, staying relaxed and polite. Sound: hens clucking, scratching in dirt, owner says "leave them". 10-15s (Walking the lane): Dirt farm lane between two fields, first pale light on the horizon, mist on the grass. The dog walks ahead of the owner along the lane, sniffing the edge of the grass, a tractor parked in the background. His breath makes small puffs in the cool morning air. Sound: footsteps on dirt, birds waking up, cow lowing. 15-20s (Sunrise sit): Wooden fence at the end of the lane, the sun just appearing over the far field, soft early morning light. The dog sits beside the owner's work boots looking out at the field, his breath puffing in the cool air. Sound: quiet morning, a distant tractor starting, owner sighs "beautiful". 20-25s (Following the bucket): Farmyard in early morning light, muddy ground and a water trough. The owner carries a metal feed bucket toward the barn and the dog follows right at their heels, looking up at the bucket, tail wagging. He stops when the owner stops at the barn door and sits, waiting for the next job. Sound: bucket handle squeaking, footsteps in mud, owner says "come on, helper".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Open doorway of an old wooden barn at dawn, cool blue early light, straw on the concrete floor. The dog walks out into the yard and does a long full stretch, front legs out and rear up, then a big yawn. Sound: a big yawn, a rooster crowing, barn door creaking.

Clip 2 | 5-10s | Chickens through fence

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
