Pulling a Small Cart

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Cart training on a flat farm lane: getting the harness on, the first steps, pulling the light cart along the lane, a stop on command and a treat reward.

TIMELINE

0-5s	Harness on
5-10s	First steps
10-15s	Pulling the cart
15-20s	Stop on command
20-25s	Treat reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Harness on): Flat gravel driveway beside a farmhouse in late morning, soft overcast daylight. The dog stands still while the owner's hands buckle a padded black pulling harness around his chest, a small light wooden cart with two bicycle wheels behind him. Sound: buckles clicking, birds, owner says "good, stand". 5-10s (First steps): Same flat gravel driveway, overcast daylight, the light cart attached to the harness with shafts on both sides. The dog takes a few careful steps forward, glancing back at the cart rolling behind him, ears relaxed. The owner walks right beside him, one hand resting near the harness, praising him quietly. Sound: wheels crunching on gravel, owner says "walk on". 10-15s (Pulling the cart): Flat dirt farm lane with grass on both sides, grey late morning light. The dog walks steadily pulling the small cart holding a few light pumpkins, the owner walking right beside him with a hand near his collar. The ground is completely flat and the cart rolls easily. Sound: wheels rolling, footsteps, harness creaking. 15-20s (Stop on command): Same flat farm lane, overcast daylight, a wooden fence beside. The owner says a calm word and the dog stops right away, standing still with the cart behind him, then looks up at the owner waiting. The cart is light and stays steady behind him, the wheels still on the dirt. Sound: owner says "whoa", cart stopping, quiet panting. 20-25s (Treat reward): Farm lane by the fence, soft daylight. The owner crouches and gives the dog a treat from their palm, rubbing his chest under the harness. The dog chews happily, tail wagging, the small cart still behind him. He licks the owner's hand and looks up hopefully for one more treat. Sound: chewing, tail thumping the cart, owner says "so good".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Harness on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Flat gravel driveway beside a farmhouse in late morning, soft overcast daylight. The dog stands still while the owner's hands buckle a padded black pulling harness around his chest, a small light wooden cart with two bicycle wheels behind him. Sound: buckles clicking, birds, owner says "good, stand".

Clip 2 | 5-10s | First steps

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
