Mountain Lake Swim

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A swim in a calm mountain lake with the dog wearing a life vest: wading in, swimming along the shore, fetching a floating toy, coming out and drying off on a warm rock.

TIMELINE

0-5s	Wading in
5-10s	Swimming along shore
10-15s	Fetching toy
15-20s	Coming out
20-25s	Drying on rock

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Wading in): Calm clear mountain lake on a sunny afternoon, natural bright daylight, pine trees and rocky peaks around, a pebble shore. The dog wades into the shallow water wearing a yellow life vest, testing the cold water with each step. His tail swings slowly above the water. Sound: calm water lapping, wind, owner says "cold?". 5-10s (Swimming along shore): Same calm mountain lake, bright afternoon light, glassy water. The dog swims parallel to the shore a few meters out, head up and the yellow life vest keeping him steady, paddling calmly. The water is completely calm, and the owner stands knee deep nearby watching him closely, ready to call him in. Sound: paddling, gentle splashes, birds. 10-15s (Fetching toy): Calm mountain lake, sunny daylight. A floating orange bumper toy lands nearby and the dog swims to it, grabs it in his mouth and turns back toward the shore in his yellow life vest. He swims back in a smooth curve, ears up, the toy held firmly, eyes on the owner. Sound: splash of the toy, paddling, owner says "got it!". 15-20s (Coming out): Pebble shore of the mountain lake, bright afternoon daylight. The dog walks out of the water with the orange bumper, drops it at the owner's feet and does a big shake, water spraying from his coat. He stands with his tongue out, looking up, ready for another throw. Sound: water dripping, a big shake, owner laughing. 20-25s (Drying on rock): Large flat sun-warmed rock at the edge of the lake, bright daylight, pine trees behind. The dog lies on the rock beside the owner's towel with his life vest unbuckled, panting happily, wet fur drying in the sun. His eyes slowly close as he relaxes in the warm sun. Sound: panting, calm water, wind in pines.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wading in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Calm clear mountain lake on a sunny afternoon, natural bright daylight, pine trees and rocky peaks around, a pebble shore. The dog wades into the shallow water wearing a yellow life vest, testing the cold water with each step. His tail swings slowly above the water. Sound: calm water lapping, wind, owner says "cold?".

Clip 2 | 5-10s | Swimming along shore

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
