Evening Patrol of the Property

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog's evening round of the property at dusk: starting at the back door, checking the shed, sniffing along the hedge, standing at the driveway and heading inside under the porch light.

TIMELINE

0-5s	Out the back door
5-10s	Checking the shed
10-15s	Sniffing hedge
15-20s	At the driveway
20-25s	Heading inside

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Out the back door): Back door of a rural house at dusk, fading blue evening light, a porch light just switched on. The dog walks out onto the back steps, pauses to look across the large grassy yard, then trots down onto the lawn. Sound: door closing, crickets starting, paws on wooden steps. 5-10s (Checking the shed): Old wooden garden shed at the edge of the yard, dusk light, tall grass around its base. The dog walks around the corner of the shed sniffing the base of the wall, ears forward, tail level. He finishes the loop around the shed and moves on toward the far side of the yard. Sound: sniffing, crickets, a distant dog barking. 10-15s (Sniffing hedge): Long thick hedge along the side of the yard, dim evening light. The dog moves along the hedge with his nose low, stopping now and then to push his muzzle into the leaves and sniff deeply. His tail wags slowly as he works, then he lifts his head and keeps going. Sound: leaves rustling, deep sniffing, owner says "anything there?". 15-20s (At the driveway): End of a gravel driveway at dusk, the last light in the sky, a mailbox post and the quiet country road beyond. The dog stands at the edge of the driveway looking down the empty road, ears up, completely still. Sound: crickets, a car far away, wind. 20-25s (Heading inside): Back porch lit by the yellow porch light, dark evening sky. The dog trots up the steps and through the door the owner holds open, tail wagging, then turns and looks back at the dark yard one last time. The porch light shines on his black coat. Sound: paws on wood, door creaking, owner says "all clear? good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Out the back door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Back door of a rural house at dusk, fading blue evening light, a porch light just switched on. The dog walks out onto the back steps, pauses to look across the large grassy yard, then trots down onto the lawn. Sound: door closing, crickets starting, paws on wooden steps.

Clip 2 | 5-10s | Checking the shed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
