Steep Rocky Trail Climb

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A climb up a steep rocky trail with the dog in his element: stepping up the rocks, scrambling a boulder step, waiting for the owner, drinking from a small spring and reaching the flat summit.

TIMELINE

0-5s	Stepping up rocks
5-10s	Boulder step
10-15s	Waiting for owner
15-20s	Spring drink
20-25s	Reaching summit

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Stepping up rocks): Steep wide rocky trail through scrubby pines on a bright morning, clear natural daylight, large flat stones like steps. The dog hops up from stone to stone with sure feet, tail level, moving ahead in the center of the trail. Sound: claws scraping rock, heavy breathing, birds. 5-10s (Boulder step): Same rocky trail, bright daylight, a waist-high rounded boulder blocking the path with a wide flat top. The dog jumps up onto it in one push from his hind legs, lands neatly, and stands on top looking back at the owner. Sound: a scrabble of paws, owner says "show off". 10-15s (Waiting for owner): Wide rocky ledge on the trail, far from any drop, bright morning light, small pines growing between rocks. The dog sits on the flat rock waiting, panting, while the owner's hands grab the rocks below as they climb up toward him. Sound: owner puffing, panting, owner says "give me a sec". 15-20s (Spring drink): Small trickling spring coming out of the rocks beside the trail, a little clear pool, dappled daylight. The dog drinks from the pool, water dripping off his chin, then lifts his head and licks his nose. He looks back at the owner, then steps aside so they can rest by the spring too. Sound: trickling water, lapping, wind. 20-25s (Reaching summit): Wide flat rocky summit with low bushes, clear bright daylight, rolling hills far away. The dog trots onto the open top, stops in the middle well back from the edges, and stands looking around, chest heaving, tail wagging. The trail and the summit are wide and safe. Sound: wind, panting, owner says "we did it!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Stepping up rocks

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Steep wide rocky trail through scrubby pines on a bright morning, clear natural daylight, large flat stones like steps. The dog hops up from stone to stone with sure feet, tail level, moving ahead in the center of the trail. Sound: claws scraping rock, heavy breathing, birds.

Clip 2 | 5-10s | Boulder step

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
