Late Afternoon Ridge Hike

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A relaxed late afternoon hike on a broad ridge trail: walking through the long shadows, sniffing heather, a heel walk, a stop to look out, and walking back down at the end of the day.

TIMELINE

0-5s	Long shadows walk
5-10s	Sniffing heather
10-15s	Heel walk
15-20s	Looking out
20-25s	Heading down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Long shadows walk): Broad grassy ridge trail in the late afternoon, warm low sunlight from the side, long shadows stretching across the path. The dog walks ahead in the center of the wide trail, his shadow long beside him, tail swinging. The trail is wide and the slopes are far away. Sound: footsteps on dirt, wind, birds. 5-10s (Sniffing heather): Purple heather beside the wide ridge path, warm late afternoon light. The dog sniffs through the low bushes, nose pushing between the branches, a bee buzzing nearby, then moves on along the trail. His tail wags slowly as he takes in the scents, and he sneezes once from the pollen. Sound: sniffing, a bee buzzing, wind in the heather. 10-15s (Heel walk): Broad ridge trail, warm low afternoon sun. The dog walks right at the owner's left leg in a neat heel, looking up at the owner's face every few steps, tail wagging, matching their pace. The low sun lights the grass around them, and his collar tag clinks with each step. Sound: footsteps, owner says "heel, good", collar tag jingling. 15-20s (Looking out): Wide flat spot on the ridge trail, well back from the slope, warm late sun, hills fading into the distance. The dog stands still beside the owner looking out over the valley, ears up, fur lit warmly by the low sun. Sound: wind, a distant church bell, owner sighs "wow". 20-25s (Heading down): Wide trail descending off the ridge, late afternoon light fading to dusk, shadows getting longer. The dog trots down the path ahead of the owner, stopping briefly to look back and make sure they're coming. The sky behind the ridge fades to soft orange and pink as they walk down. Sound: footsteps on gravel, panting, owner says "let's go home".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Long shadows walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Broad grassy ridge trail in the late afternoon, warm low sunlight from the side, long shadows stretching across the path. The dog walks ahead in the center of the wide trail, his shadow long beside him, tail swinging. The trail is wide and the slopes are far away. Sound: footsteps on dirt, wind, birds.

Clip 2 | 5-10s | Sniffing heather

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
