Watching a K9 Unit Demonstration

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

At a small community field day the dog watches a police K9 demonstration from the sideline, then gets invited in to heel, clear a low jump, run the tunnel and earn a tug from an officer.

TIMELINE

0-5s	Watching from the sideline
5-10s	Invited onto the field
10-15s	Clearing the jump
15-20s	Running the tunnel
20-25s	Tug from the officer

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Watching from the sideline): Grass sports field at a small town park, bright overcast afternoon, a simple rope line on short metal stakes. The dog sits beside the owner's legs behind the rope, ears fully up, head tracking an officer in a plain navy uniform carrying a low wooden jump onto the field. A few families sit on folding chairs far away. Sound: light chatter far off, a whistle, birds, the dog's soft whine. 5-10s (Invited onto the field): Same park field, overcast afternoon. The officer smiles and waves the owner over. The owner lifts the rope and the dog walks in at a tight heel, head up and pressed close to the owner's left leg, glancing up at the camera as they cross the patchy grass toward the officer. Sound: footsteps on grass, tags jingling, officer says "bring him on in". 10-15s (Clearing the jump): Middle of the park field, flat afternoon daylight, a low plain wooden jump about knee height. The owner says over and the dog trots forward, gathers himself and jumps cleanly, landing softly on the grass, then circles back to the owner and sits, tail sweeping the grass. Sound: paws thudding on grass, a few people clapping in the distance, owner says "nice". 15-20s (Running the tunnel): Same field, overcast daylight, a short dark green fabric tunnel lying flat on the grass. The officer crouches at the far end and pats the ground. The dog ducks in, the fabric bulges as he moves through, and he pops out at the officer's knees, shaking his ears. Sound: fabric rustling, officer laughing, scattered applause, dog's quick panting. 20-25s (Tug from the officer): Edge of the park field, overcast afternoon. The officer kneels on one knee and offers a short black rubber tug. The dog grabs it and pulls for a few seconds, then releases right away on the out command and sits. The officer rubs his chest and gives the owner a thumbs up. Sound: rubber squeaking, officer says "out - good dog", owner laughs, light wind.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching from the sideline

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Grass sports field at a small town park, bright overcast afternoon, a simple rope line on short metal stakes. The dog sits beside the owner's legs behind the rope, ears fully up, head tracking an officer in a plain navy uniform carrying a low wooden jump onto the field. A few families sit on folding chairs far away. Sound: light chatter far off, a whistle, birds, the dog's soft whine.

Clip 2 | 5-10s | Invited onto the field

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Sound: rubber squeaking, officer says "out - good dog", owner laughs, light wind.

FACEBOOK CAPTION

We went to watch the K9 demo and somehow ended up in it.
The officer said he would make a great partner. I said he already has one.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
