Therapy Visit at the Children's Hospital

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm therapy visit with hospital staff close by: waiting quietly in the lobby, walking the hallway, gentle pets from a child in a wheelchair, lying by a bedside and a goodbye wave.

TIMELINE

0-5s	Waiting in the lobby
5-10s	Walking the hallway
10-15s	Gentle pets
15-20s	Lying by the bedside
20-25s	Goodbye wave

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Waiting in the lobby): Bright hospital lobby with pale tile floor, soft daylight from tall windows, a few plain potted plants. The dog lies calmly on a small grey mat beside the owner's chair, wearing a plain red vest with no text or patches. A nurse in light blue scrubs kneels and lets him sniff her hand. Sound: quiet lobby murmur, soft footsteps, nurse says "hi handsome", tags clinking. 5-10s (Walking the hallway): Long quiet hospital hallway, white walls with colorful painted animals, even ceiling lights and daylight from a window at the end. The dog walks slowly at the owner's side on a short loose leash, beside the nurse, claws clicking softly on the polished floor, calm and unbothered. Sound: claws clicking on tile, a distant soft beep, quiet footsteps. 10-15s (Gentle pets): Bright playroom with low tables and soft window light. A young boy in a wheelchair with a blanket on his lap reaches down while a nurse stands right beside him. The dog sits close and lowers his head so the boy can stroke his ears, staying completely still. Sound: soft giggle, nurse says "gentle, just like that", quiet room. 15-20s (Lying by the bedside): Calm patient room with pale curtains, afternoon daylight from the window. A girl sits up in bed holding a picture book with a plain cover, a nurse checking her pillow. The dog lies on a mat on the floor beside the bed, chin on his paws, eyes on the girl. Sound: pages turning, the girl's quiet voice reading, soft machine hum. 20-25s (Goodbye wave): Hospital hallway near the elevators, soft ceiling light and daylight from a window. Two nurses in blue scrubs wave and smile. The dog sits beside the owner, tail sweeping the floor, and leans briefly into one nurse's hand before they walk away together. Sound: nurses saying "see you next week", elevator ding, tail thumping on tile.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Waiting in the lobby

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Bright hospital lobby with pale tile floor, soft daylight from tall windows, a few plain potted plants. The dog lies calmly on a small grey mat beside the owner's chair, wearing a plain red vest with no text or patches. A nurse in light blue scrubs kneels and lets him sniff her hand. Sound: quiet lobby murmur, soft footsteps, nurse says "hi handsome", tags clinking.

Clip 2 | 5-10s | Walking the hallway

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
