A Retired Military Dog's New Life

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The first weeks of civilian life for a retired military working dog: his first soft bed, exploring the backyard, an easy game of fetch, a visit from his old handler and an evening with the family.

TIMELINE

0-5s	First soft bed
5-10s	Exploring the backyard
10-15s	Easy fetch
15-20s	Old handler visits
20-25s	Evening with family

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (First soft bed): Small living room, mid-morning, daylight through sheer curtains, light wood floor. A new thick grey dog bed sits by the couch. The dog sniffs the edges slowly, steps in, turns around twice and lies down with a heavy sigh, chin resting on the raised side. Sound: quiet house, bed rustling, a big sigh, owner whispers "welcome home". 5-10s (Exploring the backyard): Fenced backyard, late morning, overcast daylight, short patchy grass, a wooden fence and a plastic patio chair. The dog walks the fence line slowly with his nose down, stops to sniff a fence post, then lifts his head and looks around the quiet yard. Sound: birds, a neighbor's wind chime, deep sniffing, light breeze. 10-15s (Easy fetch): Same backyard, cloudy midday. The owner's hand rolls a soft red rubber ball across the grass. The dog trots after it, picks it up, hesitates as if unsure, then jogs back and drops it at the owner's feet, tail wagging a little faster. Sound: ball bouncing softly, owner laughs "you got it", panting. 15-20s (Old handler visits): Front porch steps of a small white house, afternoon daylight, potted geraniums. A young man in jeans and a plain grey hoodie sits on the steps. The dog presses his whole body against him, whining and wagging, and the man wraps an arm around his neck. Sound: excited whining, the man laughs and says "hey partner, I missed you". 20-25s (Evening with family): Living room in the evening, warm ceiling light and a table lamp, family feet in socks on the coffee table. The dog lies on the rug in front of the couch, belly half up, while a hand rubs his chest. His eyes close slowly. Sound: quiet television voices off screen, soft laughter, a long dog sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First soft bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Small living room, mid-morning, daylight through sheer curtains, light wood floor. A new thick grey dog bed sits by the couch. The dog sniffs the edges slowly, steps in, turns around twice and lies down with a heavy sigh, chin resting on the raised side. Sound: quiet house, bed rustling, a big sigh, owner whispers "welcome home".

Clip 2 | 5-10s | Exploring the backyard

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
