Retired Police Dog Enjoying His Golden Years

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A slow, happy day for a retired police dog: a gentle morning stroll, sunbathing on the lawn, breakfast from a raised bowl, an easy nose game and a nap under a blanket.

TIMELINE

0-5s	Gentle morning stroll
5-10s	Sunbathing on the lawn
10-15s	Breakfast from a raised bowl
15-20s	Easy nose game
20-25s	Nap under a blanket

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male working-line bi-color German Shepherd, almost fully black with tan lower legs, a grey muzzle and grey around the eyes, a little thinner, moving slowly but still alert, wearing a faded orange biothane collar with a small metal tag. 0-5s (Gentle morning stroll): Quiet suburban street, early morning, soft grey light, damp sidewalk and leafy trees. The dog walks slowly on a loose leash beside the owner's legs, stopping to sniff a lamp post for a long time, his tail swaying gently, then continuing with stiff but steady steps. Sound: birds, a sprinkler ticking, slow footsteps, owner says "take your time, old man". 5-10s (Sunbathing on the lawn): Front lawn of a small house, mid-morning, warm sunshine, slightly overgrown grass and a garden gnome by the steps. The dog lies on his side in a patch of sun, eyes closed, one ear twitching at a fly, belly rising and falling slowly. Sound: bees buzzing, distant lawn mower, quiet snoring breaths. 10-15s (Breakfast from a raised bowl): Kitchen with beige tile floor and white cabinets, morning daylight. A raised steel bowl on a wooden stand holds soaked kibble. The dog walks up slowly, eats with careful bites, then looks back at the owner's hand holding the bag with his grey muzzle dripping. Sound: slow chewing, bowl clinking, owner laughs "no seconds, buddy". 15-20s (Easy nose game): Living room with a worn red rug, late afternoon daylight from a side window. Three plastic cups sit upside down on the rug. The dog sniffs each cup slowly, then nudges the middle one over with his nose and gently eats the small treat beneath it, tail wagging. Sound: cup tipping over, sniffing, owner says "still got it". 20-25s (Nap under a blanket): Same living room in the evening, a warm table lamp on. The dog lies curled on a thick orthopedic bed by the couch. The owner's hands lay a soft blue fleece blanket over his back, and he opens one eye, thumps his tail once and goes back to sleep. Sound: quiet room, blanket rustling, one tail thump, deep sleepy breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
