The Legend of Our Street

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Everyone on the block knows him: a wave from the mail carrier, hellos from the kids next door, a pat from the elderly neighbor, waiting at the corner and watching the street at dusk.

TIMELINE

0-5s	Mail carrier wave
5-10s	Hellos from the kids
10-15s	Pat from the neighbor
15-20s	Waiting at the corner
20-25s	Watching the street at dusk

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Mail carrier wave): Front yard behind a low white picket fence, late morning, bright overcast daylight. A mail carrier in a plain blue shirt with a plain shoulder bag walks past on the sidewalk and waves. The dog trots to the fence, tail wagging, and sticks his nose through the gap for a quick pat. Sound: footsteps, mail carrier says "morning, big guy", birds, tail thumping the fence. 5-10s (Hellos from the kids): Side yard by a wooden fence, early afternoon, sunny with light clouds. Two kids lean on the neighbor's side of the fence with their mom standing behind them. The dog stands calmly on his side, letting them pat his head over the top board. Sound: kids giggling, mom says "gently", wind chimes, panting. 10-15s (Pat from the neighbor): Neighbor's front walkway, mid-afternoon, soft daylight, rose bushes and a white bench. An elderly man in a flat cap sits on the bench and the dog walks over on leash, sits beside his knee and rests his chin there while the man strokes his head slowly. Sound: man chuckles "the mayor of the street", birds, a car door far away. 15-20s (Waiting at the corner): Street corner by a stop sign seen only from behind, late afternoon, long soft shadows. The dog sits on the grass strip beside the owner's legs, watching a boy ride a bike slowly past, and his tail sweeps the grass as the boy waves and says hi to him. Sound: bike chain clicking, boy says "hi buddy", distant lawn mower. 20-25s (Watching the street at dusk): Front lawn at dusk, the sky fading to blue, ordinary porch light and streetlights coming on. The dog lies on the grass near the front steps, head up, calmly watching the quiet street, ears turning as a neighbor walks by and says goodnight to him. Sound: crickets, a neighbor saying "night, buddy", a far-off dog bark.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Mail carrier wave

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Front yard behind a low white picket fence, late morning, bright overcast daylight. A mail carrier in a plain blue shirt with a plain shoulder bag walks past on the sidewalk and waves. The dog trots to the fence, tail wagging, and sticks his nose through the gap for a quick pat. Sound: footsteps, mail carrier says "morning, big guy", birds, tail thumping the fence.

Clip 2 | 5-10s | Hellos from the kids

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
