# Escorting Grandma on Her Evening Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

He walks Grandma around the block every evening: matching her slow pace, waiting at the curb, resting by the bench, guiding her up the driveway and saying goodnight on the porch.

## TIMELINE

| | |
|---|---|
| **0-5s** | Matching her pace |
| **5-10s** | Waiting at the curb |
| **10-15s** | Resting by the bench |
| **15-20s** | Up the driveway |
| **20-25s** | Goodnight on the porch |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Matching her pace): Quiet neighborhood sidewalk, early evening, soft warm daylight fading, hedges and mailboxes. An elderly woman in a lavender cardigan walks slowly with a cane, holding a loose leash. The dog walks right beside her at her exact pace, glancing up at her every few steps. Sound: cane tapping on concrete, slow footsteps, birds, grandma humming. 5-10s (Waiting at the curb): Low curb at a quiet street crossing, evening daylight, a few parked cars. Grandma pauses and the dog stops and sits beside her, perfectly still. Once a car passes and she steps down carefully with her cane, he steps down with her, staying close to her side. Sound: car passing slowly, cane tap, grandma says "okay, sweetheart, now we go". 10-15s (Resting by the bench): Small park corner with a green metal bench and a big oak tree, evening light. Grandma sits down to rest. The dog lies at her feet on the grass, facing outward toward the path, ears up, while she rests one hand on his back. Sound: leaves rustling, kids far away, grandma sighs happily, soft panting. 15-20s (Up the driveway): Gently sloped concrete driveway of a small yellow house, dusk, the sky turning pink. Grandma walks up slowly with her cane, the dog close at her side, stopping each time she stops. A family member's hand holds the front door open at the top. Sound: crickets starting, cane tapping, family member says "there you two are". 20-25s (Goodnight on the porch): Front porch at dusk, ordinary yellow porch light on, a doormat and a potted fern. Grandma lowers herself into a rocking chair and cups the dog's face in both hands. He sits quietly and leans his head into her hands, tail sweeping the porch boards. Sound: rocking chair creaking, crickets, grandma says "thank you for walking me".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Matching her pace

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Quiet neighborhood sidewalk, early evening, soft warm daylight fading, hedges and mailboxes. An elderly woman in a lavender cardigan walks slowly with a cane, holding a loose leash. The dog walks right beside her at her exact pace, glancing up at her every few steps. Sound: cane tapping on concrete, slow footsteps, birds, grandma humming.

### Clip 2 | 5-10s | Waiting at the curb

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. ## FACEBOOK CAPTION

Nobody trained him to do this. He just started walking with her one day and never stopped.
Dogs know who needs them most.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
