Finding My Lost Wallet in the Park

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

I dropped my wallet on a park walk and he tracked it down: the moment I noticed, a find it command, sniffing along the path, digging into the leaves and the proud delivery.

TIMELINE

0-5s	Wallet is gone
5-10s	Find it
10-15s	Sniffing along the path
15-20s	Digging in the leaves
20-25s	Proud delivery

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Wallet is gone): Park parking lot beside a grassy hill, late afternoon, cool autumn daylight, orange leaves on the ground. The owner's hands pat empty jacket pockets in front of the camera. The dog sits beside the car, head tilted, watching the owner's hands. Sound: pockets rustling, owner sighs "no, no, no, my wallet", leaves blowing. 5-10s (Find it): Start of a gravel park path, autumn afternoon, trees with half-bare branches. The owner crouches and lets the dog sniff the open palm of the hand, then points down the path. The dog's nose drops and he sets off at a quick trot. Sound: owner says "find it, go find it", gravel crunching, deep sniffing. 10-15s (Sniffing along the path): Winding gravel path through the park, overcast autumn daylight, a wooden bench ahead and piles of fallen leaves along the edges. The dog works back and forth across the path with his nose low, the camera following a few steps behind. Sound: crunching leaves, steady sniffing, owner's footsteps, a jogger passing far off. 15-20s (Digging in the leaves): Under the wooden bench, a thick pile of brown and orange leaves, late afternoon. The dog pushes his nose deep into the leaves, paws once, and comes up holding a brown leather wallet gently in his front teeth, leaves stuck to his muzzle. Sound: leaves rustling loudly, owner gasps "no way", tags jingling. 20-25s (Proud delivery): Same spot on the gravel path, autumn daylight. The dog trots straight to the owner and sits, holding the wallet up. The owner's hand takes it, and the other hand scratches his chest while he wags so hard his whole back end wiggles. Sound: owner laughing "you are a genius", happy panting, leaves crunching.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wallet is gone

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Park parking lot beside a grassy hill, late afternoon, cool autumn daylight, orange leaves on the ground. The owner's hands pat empty jacket pockets in front of the camera. The dog sits beside the car, head tilted, watching the owner's hands. Sound: pockets rustling, owner sighs "no, no, no, my wallet", leaves blowing.

Clip 2 | 5-10s | Find it

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. FACEBOOK CAPTION

Lost my wallet somewhere in a park full of leaves. He found it in about a minute.
He is getting a steak tonight, no question.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
