Finding the Toddler's Lost Shoe

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

My toddler lost a tiny shoe in the backyard and he went to work: sniffing the other shoe, searching the grass, finding it under a bush, bringing it over gently and a happy little clap.

TIMELINE

0-5s	Sniffing the other shoe
5-10s	Searching the grass
10-15s	Under the bush
15-20s	Bringing it gently
20-25s	Happy clap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Sniffing the other shoe): Backyard patio with grey pavers, late morning, bright overcast daylight. A mom sits on a patio chair with her toddler on her lap, the toddler wearing only one small pink sneaker. Mom holds out the matching shoe and the dog sniffs it carefully. Sound: birds, toddler babbling, mom says "can you find the other one?". 5-10s (Searching the grass): Backyard lawn, overcast late morning, uneven grass, a small plastic slide and a sandbox. The dog moves slowly across the lawn with his nose low, sniffing around the slide and the edge of the sandbox, tail held level, stopping once to snort at a leaf. Sound: sniffing, grass rustling, mom says from behind the camera "good, keep looking". 10-15s (Under the bush): Garden bed along the fence, overcast daylight, a low green bush and wood chips. The dog pushes his head under the bush, then backs out carefully holding the small pink sneaker by the heel in his front teeth, gently, without chewing. Sound: leaves rustling, a soft snort, mom laughs "you found it!". 15-20s (Bringing it gently): Backyard patio, late morning daylight. The dog walks slowly to the patio chair and drops the little shoe on the pavers right beside mom's foot, then sits and looks up at her face, tail sweeping the pavers behind him, waiting for her to notice. Sound: small shoe dropping, toddler squealing, mom says "thank you, buddy". 20-25s (Happy clap): Same patio, overcast daylight. The toddler sits safely on mom's lap clapping her little hands while mom slips the shoe back on. The dog sits close and calm, and mom's free hand rubs his ear as he gives the toddler's foot a quick sniff. Sound: toddler giggling and clapping, mom laughing, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sniffing the other shoe

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Backyard patio with grey pavers, late morning, bright overcast daylight. A mom sits on a patio chair with her toddler on her lap, the toddler wearing only one small pink sneaker. Mom holds out the matching shoe and the dog sniffs it carefully. Sound: birds, toddler babbling, mom says "can you find the other one?".

Clip 2 | 5-10s | Searching the grass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
