Bringing Me My Phone

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

My phone rang while I was elbow deep in the garden, so he went to get it: the ask, running inside, picking it up off the bench, carrying it across the lawn and the gentle hand-off.

TIMELINE

0-5s	The ask
5-10s	Running inside
10-15s	Picking it up
15-20s	Carrying it across the lawn
20-25s	Gentle hand-off

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (The ask): Backyard flower bed, late afternoon, warm sunshine, soil and a trowel on the ground. The owner's dirty gloved hands are in the soil. The dog lies nearby on the grass. A faint ringtone sounds from the house and the owner points toward the open patio door. Sound: faint phone ringing indoors, owner says "phone - go get my phone", birds. 5-10s (Running inside): Backyard and open sliding patio door, late afternoon sunlight. The dog jumps up and trots across the patio, through the open door and into the house, his tail disappearing inside past a potted plant and a pair of muddy sneakers on the mat. Sound: paws on patio stones, ringing getting louder, tags jingling. 10-15s (Picking it up): Entryway inside the patio door, daylight from the doorway, a low wooden bench with keys and a phone in a thick black rubber case lying screen down. The dog sniffs the phone, then lifts it carefully by the edge of the case in his front teeth. Sound: phone buzzing on wood, soft sniff, ringing. 15-20s (Carrying it across the lawn): Backyard lawn, warm late afternoon light, short grass. The dog trots out through the patio door and across the grass holding the buzzing phone gently in his mouth, the screen facing away from the camera, ears back and tail wagging. Sound: phone ringing, panting, owner laughing "no way, good boy". 20-25s (Gentle hand-off): Flower bed again, late afternoon sunshine. The dog sits in front of the owner and releases the phone into the owner's gloved hand, screen facing away from the camera. The owner's other hand gives him a big scratch behind the ears. Sound: ringing stops, owner says "you are better than an assistant", happy panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The ask

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Backyard flower bed, late afternoon, warm sunshine, soil and a trowel on the ground. The owner's dirty gloved hands are in the soil. The dog lies nearby on the grass. A faint ringtone sounds from the house and the owner points toward the open patio door. Sound: faint phone ringing indoors, owner says "phone - go get my phone", birds.

Clip 2 | 5-10s | Running inside

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. FACEBOOK CAPTION

I taught him this for emergencies. He mostly uses it when my mom calls.
Would your dog bring your phone or run off with it?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
