Letting Us Know the Baby Is Awake

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Mom folds laundry while the baby naps in the bassinet nearby and he keeps watch: lying close, noticing the baby stir, nudging mom, leading her over and settling back down.

TIMELINE

0-5s	Keeping watch
5-10s	Noticing the stir
10-15s	Nudging mom
15-20s	Leading her over
20-25s	Settling back down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Keeping watch): Cozy living room, early afternoon, soft daylight through thin curtains. A baby sleeps in a white bassinet beside the couch while mom sits across the room folding laundry on the armchair. The dog lies on the rug right beside the bassinet, chin on his paws, eyes open. Sound: quiet room, fabric rustling, soft baby breathing, a clock ticking. 5-10s (Noticing the stir): Same living room, afternoon daylight. A tiny arm moves above the bassinet edge and the baby makes a small fussing sound. The dog lifts his head, ears forward, then stands up slowly and peeks gently toward the bassinet without touching it. Sound: small baby fuss, rug rustling, mom still folding in the background. 10-15s (Nudging mom): Across the same living room, mom on the armchair with a pile of towels in afternoon light. The dog walks over and pushes his nose under her hand, then looks back toward the bassinet and lets out a quiet whine. Sound: quiet whine, mom says softly "is she up? okay, okay". 15-20s (Leading her over): Same living room, soft daylight. Mom sets down a towel and walks to the bassinet. The dog walks ahead of her, then sits calmly a step away while she leans over and lifts the baby up against her shoulder, patting her back. Sound: baby cooing, mom says "hi sweetheart", tail thumping on the rug. 20-25s (Settling back down): Couch in the living room, afternoon daylight. Mom sits holding the baby close in her arms. The dog lies down on the rug at her feet, resting his chin on her slipper and letting out a long, satisfied sigh before closing his eyes. Sound: baby cooing, a long dog sigh, mom says "thank you for telling me".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Keeping watch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Cozy living room, early afternoon, soft daylight through thin curtains. A baby sleeps in a white bassinet beside the couch while mom sits across the room folding laundry on the armchair. The dog lies on the rug right beside the bassinet, chin on his paws, eyes open. Sound: quiet room, fabric rustling, soft baby breathing, a clock ticking.

Clip 2 | 5-10s | Noticing the stir

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
