Warning the Chickens About the Hawk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A hawk circled over the backyard flock and he sounded the alarm: spotting it, barking by the coop, the hens running inside, the hawk giving up and him settling down on guard.

TIMELINE

0-5s	Spotting the hawk
5-10s	Barking by the coop
10-15s	Hens run inside
15-20s	Hawk gives up
20-25s	Settling down on guard

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Spotting the hawk): Rural backyard with a wooden chicken coop and a wire run, midday, bright clear sky. Brown hens peck at the dirt inside the run. The dog lies in the shade of the coop, then lifts his head and stares straight up at a dark hawk circling high in the sky. Sound: hens clucking, a hawk's thin cry far above, wind in the trees. 5-10s (Barking by the coop): Same backyard, bright midday sun. The dog stands up next to the outside of the wire run, head tipped toward the sky, and barks loud and steady upward, staying beside the coop and never going in with the hens or touching the wire. Sound: loud deep barking, hens squawking, owner's voice "what do you see?". 10-15s (Hens run inside): Chicken run, midday sunlight, straw on the ground and a small coop door ramp. The brown hens scurry up the wooden ramp into the coop in a flurry of feathers, while the dog stays outside the wire, still barking up at the sky. Sound: frantic clucking, wings flapping, barking. 15-20s (Hawk gives up): Open sky above the backyard trees, bright daylight, the camera tilting up shakily. The hawk drifts away over the treetops and out of sight. The camera tilts back down to the dog standing tall beside the coop, watching the sky, ears up. Sound: the hawk's cry fading, a final bark, owner says "he's gone, buddy". 20-25s (Settling down on guard): Beside the chicken coop, early afternoon sun, patchy grass and a water bucket. The dog lies down in front of the run facing the yard, still alert, while one hen pokes her head back out of the coop door behind him. Sound: soft clucking resuming, the dog panting, owner says "good boy, good watch".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting the hawk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Rural backyard with a wooden chicken coop and a wire run, midday, bright clear sky. Brown hens peck at the dirt inside the run. The dog lies in the shade of the coop, then lifts his head and stares straight up at a dark hawk circling high in the sky. Sound: hens clucking, a hawk's thin cry far above, wind in the trees.

Clip 2 | 5-10s | Barking by the coop

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

He has never touched the chickens, but he will absolutely yell at anything that looks at them.
Does your dog guard your flock too?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
